

SEYMOUR DAILY REPUBLICAN.

VOLUME XXIX NO. 94 SEYMOUR, INDIANA, WEDNESDAY, MARCH 30, 1910. PRICE TWO CENTS

DISTRICT MEETING

Program of Improved Order of Red Men For Thursday.

The Chickieth lodge of the Improved Order of Red Men are completing final arrangements for the district meeting which will be held in this city Thursday. Preparations are being made to accommodate a large crowd.

The meeting in the afternoon will be public and the lodge desires that a large number be present. A good program has been prepared and some excellent addresses will be made.

In the evening a parade will be given, and along the line of March there will be an excellent display of fireworks.

The following program will be given on the hunting grounds of the Seymour reservation.

Public Session.

Meeting called to order at 2:15 p. m. Address of Welcome By E. P. Elsner Response Roy Emig Address Dr. C. M. Stout, G. S. Address G. F. Harper, G. J. S. Calling Roll of Tribes. Queries and Answers. Conferring of Grand Lodge Degree. Remarks. Adjournment.

Night Session.

Members will meet at the Hall prompt at 6:30 p. m.

Parade will form on Chestnut street, and headed by the Vallonia Brass Band, will march South to the Pellens corner, thence East to Indianapolis Avenue; thence North to Second street; thence West to the Opera House.

Sachem opens Lodge in regular form, then surrenders Stump to Grand Officers. Conferring of Degrees. Exemplification of Secret Work. Good of the Order. Adjournment.

Mozart Music Club.

The Mozart Music Club, composed of the juvenile section of Miss Crane's class, held their regular monthly meeting last night at the home of Minnie Masher, five miles southeast of the city. Those who took part in the program were: Marie Schobert, Merle Dannett, Minnie Masher, Inez Paul, Grace Miller, Doris Geile, Jesse Hoover, Laura Willman, Eleanor Ahlbrand, Inez Kreinhagen, Russell Phillips, Elsa Massman, Frieda Peters, George Meyer, Magdalena Kasperlain, Dorothy Ulm, Margaret McCord and Wilfred Geile. The members went out in hack and enjoyed the outing very much. After the program, refreshments were served.

A GREAT PUBLIC BENEFIT.

However prejudiced some people are against advertised medicines the general public is greatly benefited by some. For instance such standard remedies as the Cod Liver and Iron preparation called VINOL. Its ingredients are printed on every bottle and its worth has been proven so often in cases of severe coughs and colds and to create health and strength for the weak and run-down that its sale will continue to increase in the future as it has in the past.

FOR SALE.

Two good second hand upright pianos. A Schubert in ebony case, and a Wayne in mahogany case. In splendid condition. A bargain.

Progressive Music Co.

Garden seeds, bulk and packages, at the Bee Hive.

Girl wanted at the New Lynn.

\$18.00 suits \$12.00 at the Fair.

NEW GRAVEL ROAD

Will Be Constructed From Dudleytown to Township Line.

The gravel road election which was held in Dudleytown Tuesday resulted in favor of the petitioners. One hundred votes were cast in favor of the new road and forty-one against it.

According to the petition which was filed about two years ago, the new road will be built from Dudleytown to a point about one mile west and thence north to the county line. The new road when completed will intersect the Yankee road.

It is understood that the farmers who live in the vicinity of the new highway were anxious that it be constructed as they often experience much difficulty in reaching the main road, especially in the winter and spring. About fifty land owners signed the petition in favor of the road, which will be about five miles in length. The date of the election was set several weeks ago.

It is believed that the work will be begun on the road late this summer or early fall. The notice for bids will be published at once and all the legal requirements fulfilled as soon as possible.

Butler Glee Club.

The Butler College Glee Club gave an entertainment in the opera house at Brownstown Monday evening which is said by those who were present to have been very fine. The Club included Roy McKay, violinist, and a quartette, Herbert Schmidt, Robert Hemp, Paul Ragsdale, and Ben Keach, the latter a brother of Ray Keach, of this city. Mr. Hemp is also a very fine pianist and gave a number of excellent selections. The young men passed through here Tuesday en route to Indianapolis.

Among those who went down from here were Miss Sudie Keach and Miss Addie Reynolds.

STRONG ADDRESS.

Rev. F. M. Huckleberry Speaks Before Baptist Convention at Bedford.

Rev. F. M. Huckleberry, of the First Baptist Church, of this city, gave an excellent address at a meeting of the Baptist Convention at Bedford Tuesday afternoon. His subject was "Indiana For Christ," and the address was heard by a large audience.

BORN.

To Mr. and Mrs. W. A. Seward, on Wednesday, March 30, a son.

Jerome Dronberger went to Seymour today where he will probably make his home with his daughter, Mrs. Joe Conden. He was accompanied by his son, Clancy Dronberger and family, who will remain a few weeks.—Hope Star.

Frank Riehl, of Indianapolis, who has been visiting relatives at North Vernon, came here Tuesday to visit his brother, Mike Riehl. Mr. Riehl formerly lived in this city.

W. G. Hutchinson left on No. 1 today for Oklahoma to make his future home. Mrs. Hutchinson and son will continue the grocery business on West Brown street.

Conductor Lawrence Johnson, of the Southern Indiana local, is taking a ten days lay off and Conductor Means is working in his absence.

Hat flowers, 10c a bunch at the Bee Hive.

\$3.00 shoes \$2.25 at the Fair.

ENUMERATORS

For Jackson County Receive Commissions.

The census enumerators for Jackson county have received their commissions from W. O. Protsman, census supervisor of the Fourth district, and most of them have already qualified for the work, which begins April 15. The enumerators were required to properly sign the blank containing the oath of office, and return it immediately to the district supervisor. As soon as this is received the schedules and instructions regarding the census will be forwarded to each enumerator.

The scale upon which the enumerators are paid varies according to the population. The rates of compensation for the enumerators in this county are as follows:

For each inhabitant enumerated (general schedule) 3 cents
For each farm reported 25 cents
For each establishment of productive industry reported 30 cents
For each slaughtering establishment reported 20 cents
For each barn or enclosure containing live stock not on farms or ranges reported 10 cents

The statistics which will be taken this year are much more comprehensive than any which have ever been taken before. The schedules regarding the farm products and farming implements are especially long and cover every phase of farm life. These statistics have been found very valuable, not only to the government, but to thousands of citizens, and an effort will be made to make the tables as accurate as possible.

The department wishes it understood that the figures concerning the value of property will not be used as a means to raise taxes, but will be confined to the purpose of the department.

GOVERNMENT

To Assist in Punishing Persons Who Violate Liquor Laws.

The government has decided to go after "blind tigers" and "bootleggers." Hereafter persons engaged in these forms of the liquor traffic are to be dealt with much more drastically than heretofore. This stand of the government has particular reference to violations of the internal revenue laws in "dry" counties where local enactments prohibit dealing in liquor.

New regulations have been drawn under the supervision of Mr. Cabell, the commissioner of internal revenue, and approved by Secretary MacVeagh. They set out that as the peddling of liquors is not contemplated by the internal revenue laws, and no provision is made for the issuance of any stamp legalizing such practice, peddlers of liquor, or "bootleggers" are not to be regarded as coming within the class of unintentional violators and should be arrested and reported for prosecution wherever found selling liquor in such manner.

Next Tuesday is the republican state convention and Jackson county should send a good crowd along with the thirteen delegates. This county is especially interested in the convention this year since Judge Oscar H. Montgomery will be nominated to succeed himself on the supreme bench. He will be pleased to see a big delegation from his home county at the convention next Tuesday.

Girl wanted at the New Lynn.

REQUIREMENTS

To Enter City Schools May Be Made More Rigid.

Township trustee Charles Steinwedel, has received a copy of a circular letter, which is being sent out by Robert J. Ale, state superintendent of public instruction, that stricter requirements must be placed upon the issuance of permits allowing school children in the townships to attend city schools. In his letter the state superintendent says that a large number of children who should be enrolled in the district schools are receiving their educational training in the city schools, and as a result the township schools, have been injured to some extent. Dr. Ale believes that if more rigid requirements were demanded the township schools would have a larger attendance.

Trustee Steinwedel says that in many cases in Jackson township pupils, who live near the district school buildings, are coming to school at Seymour. At the present time there are between seventy-five and one hundred children in this township enrolled in the city public schools. This in a measure accounts for the small number of graduates in the district schools each year, this spring there being but four who have completed the course in the township schools. In all townships which contain a large town or city, the trustees report that the number of the graduates from the township schools is not as large as it was several years ago.

It is believed that the convenience afforded by the interurban roads and other modes of travel are responsible in a large measure for the increased attendance in the city schools by children living in the country districts. School children living within a radius of several miles of Seymour are able to reach this city in about the same time required to go to the school building nearer their home. By attending the schools here the pupils receive the advantages of a commissioned school which is of much benefit to those who intend to enter colleges and universities in Indiana upon the completion of their high school course. To those who have this in view it is natural that they should desire to take their work in the lower grades in the schools from which they expect to be graduated.

Dr. Ale, however, desires that children who live near the township schools complete the courses offered by the district schools before taking up their studies in city schools.

FRED LANDIS' BOOK.

"The Glory of His Country" Will Have Large Sale.

The many friends of Fred Landis, former congressman from the Eleventh Indiana district, will hasten to get a copy of his book which is published by Charles Scribner's Sons. It is a fascinating story of patriotism, through which there is a thread of romance that makes it all the more interesting. While the theme of the story is found in the civil war the events and happenings related by the author are all credited to an Indiana village and to the congressional district in which that village is situated, as related. The political features of the story seem quite realistic to one who knows the inside workings of political conventions and the author doubtless drew from personal experiences in the Eleventh congressional district. "The Glory of His Country" is the title of this splendid story. This book is sure to have an extensive sale.

SEYMOUR INDIANA

Many a man who eats pie with a knife wishes he had an ax.

The tail that tries to wag the dog is bound to be cut off sooner or later.

Again let us acknowledge that the wireless is worth much more than it has ever cost.

Sarah Bernhardt is going to make a farewell tour of this country. This is probably the beginning of a habit.

The death of King Leopold removes from the scene of action one of the most remarkable sets of whiskers in the world.

A California judge has decided that the mule is a deadly weapon. It will, therefore, be against the law to carry your mules concealed.

Taking her by the large and on the average, the girl who thinks she can sing coon songs is not very popular with anybody worth while.

A Pittsburg man who stole \$22,800 says he gave it to the poor. Perhaps it was through a mere oversight that he failed to add "chorus girls."

New Hampshire again springs into fame. One of its enthusiastic citizens is reported to possess a desire to build a sanitarium to be devoted to the cure of blues.

Another advance in the price of golf balls is announced, but we are glad to be able to assure the public that no immediate increase in the cost of croquet mallets is threatened.

William E. Gladstone used to set up the claim that he was able to preserve his vigor by swinging an ax. It has been found that operating a snow-shovel is just as invigorating as chopping wood.

Governor Hughes says he is going to retire from politics and earn some money for his family. One of the unsatisfactory things about being the kind of a politician that Governor Hughes is is the lack of financial returns.

In the year 2110, according to Thomas A. Edison, even the common laborer will be able to live as well as the man who has an income of \$200,000 is able to live at present. When that comes to pass what object will anyone have in being a common laborer?

A horrible calamity is clamoring at the door of every husband in the land. If woman succeeds in securing the right to vote, she will start to bet hats on the result of the elections. Husbands will have to pay for these "merry widows" and "peach-baskets." It will be a blow aimed at the very vitals of our financial system.

Every year locomotives kill more than five thousand persons while they are walking along the railroad tracks, where, of course, hardly any of them have any business to be. The railroads are public highways, certainly, but they are not to be used by foot passengers, any more than those other public highways, the country roads, are to be used by fast express trains.

Perhaps there will be another steam navigation centenary at Detroit, a few years hence. On August 27, 1818, the first steamboat on the Great Lakes, Walk-in-the-Water, arrived before Detroit, having come up from Black Rock, Buffalo, where it was launched. It is amusing to read that its engines were so inadequate that it could not make head against the current of the Detroit river, and had to be helped up by a dozen yoke of oxen at the end of a tow-rop.

Envious American women will be interested in the wonderful "character" given to the "electric Mary Ann" by the British electrical engineer who invented her. "Mary Ann" is a small electric motor which meets a wide variety of wants. It occupies less room than a typewriter and weighs only seventeen pounds, so that it can be carried to any part of the house. Connection with an ordinary electric light circuit furnishes the power, whereupon "Mary Ann" works the washing machine or wringer, sweeps, dusts, irons, washes dishes, chops meat, churns, peels potatoes, stones raisins, kneads dough, beats eggs, or runs the sewing machine. Moreover, she works at small expense, never asks a day off or an evening out, and has no "followers." If she can be made to take her orders from a phonograph and not talk back, she will come near to being the long-sought solution of the servant girl question.

An Englishwoman who came to this continent last fall to attend the meeting of the British Association for the Advancement of Science, in Winnipeg, remarked of a visit to acquaintances in this country, "Do you know, they live in a wooden house!" Among English, and indeed most continental people, the remark may appear only as the expression of a natural and legitimate surprise; but to Americans it suggests an amusing ignorance of conditions in this country. It is those conditions, nevertheless, which are largely responsible for the stupendous annual fire loss in the United States, and the great cost of protection against fire, as compared with corresponding figures in Europe. According to statistics gathered by the cen-

sus bureau the average annual cost of fire protection to each citizen in one hundred and fifty-eight American cities is one dollar and sixty-five cents. In Berlin it is twenty-six cents, in London nineteen cents, St. Petersburg twenty-two cents, Paris twenty-one cents, Stockholm twenty-three cents. There is no country in the world where fire departments have reached a higher state of efficiency, or where the equipment is better than in the United States. Most of the modern fire-fighting appliances, indeed, are of American invention and manufacture; yet in spite of this the total fire loss in this country in 1907 was two hundred and fifteen million dollars, or more than two and one-half dollars per capita. In Europe it was forty-eight cents per capita. The difference against this country is due chiefly to the materials and methods of construction in the United States. In short, the explanation lies largely in the Englishwoman's remark. We still live in wooden houses. She might have added that we build them without a thought that they may burn, and therefore in a way to make them the easiest possible prey for the flames.

Several of our states have shown a real interest in the question of "universal" old-age pensions on the English model, and of course the special question of retiring on allowance superannuated public employees is growing more acute, as is evidenced by the vigorous advocacy of civil pensioners by the Taft administration. In Massachusetts old-age pension bills have been so numerous that the Legislature has found it necessary to create a committee to make a thorough investigation of the various retiring systems in force in Europe and America, not only in public services, but in the large financial and industrial establishments. The committee has done its work conscientiously and well, and its data and conclusions should be studied by the legislators and social reformers of the other states. The committee rejects the radical principle of "universal" old age pensions paid by the public treasury. It believes that such a scheme as England has adopted—and is about to extend under political pressure and party rivalry in "promises"—is decidedly unfavorable to the development of thrift. It thinks, too, that it would be unjust to the general taxpayers and too costly to be maintained. But it strongly indorses the principle of contributory retiring pensions for public as well as private employees. It points out that of late American banks, railroads and manufacturing corporations have been spontaneously establishing old age pension systems from motives of enlightened self-interest, and it hopes that employers will increasingly follow these examples. It is doubtful whether pensions to the aged could ever be paid by state or nation in this country under our constitutional system. But to voluntary schemes, contributed to by employees and employers, and to retiring plans for public servants, there are no legal difficulties, and rapid progress in those directions may be looked for. Proper provision for old age is a condition of efficiency and a sign of national prudence and thrift.

Comrades.

Bobby was ten years old, and an alarmingly light-hearted and careless young person. It was supposed, however, that he would be capable of escorting his grandmother to the family Christmas dinner, one block away from home, without mishap.

He was tall for his age, and he offered his arm to his grandmother in a gallant and satisfactory manner as they started off together.

"I hope he will remember that she is almost ninety, and not try to hurry her. I'm sure I've cautioned him enough," said Bobby's mother as she began to dress her young children. But when they arrived at the family party it appeared that grandmother had turned her ankle and was lying on the lounge.

"Bobby," said the mother reproachfully, "where were you when grandmother slipped?"

"Now I won't have that boy blamed," said grandmother, briskly, smiling up into Bobby's remorseful face. "We came to a fine ice slide, and he asked me if I thought we could do it, and I told him I did. And I want you children to remember one thing; when you get to be most ninety you'll count a turned ankle a small thing compared with having somebody forget that you've outlived everything but rheumatism and sitting still. Anybody that likes can rub this ankle a minute or two with some liniment, but I want Bobby next me at dinner, mind!"

To Get His Money's Worth.

In a village near Edinburgh there lived an old baker and his son. Their trade was in a flourishing condition, but unfortunately in the midst of their prosperity the old man, who had once been a great drinker, turned insane. The son, who was renowned for his love of money, was forced to put him in a lunatic asylum, and, according to the terms of the establishment, to pay a fee for three months in advance, amounting to £30. The old man was scarcely in a fortnight, however, when he died. The son, thinking to raise an action against the establishment for the recovery of the fee, as he termed it, unused money, inquired of an old lawyer who was a bit of a wag whether he thought it would be prudent to try to recover the money or not. The chip of the law, putting on a grave face, replied seriously, "Dye no think it was best to gang and put in the rest of the time yerself?"

Repentance would look better if it didn't so often take the form of an effort to dodge the consequences.

The Science of the Fairy Tale.

By Corinne Martin Lowe.

NOE when Lord Tennyson was out walking with one of his grandchildren he started to tell the child some pretty little tale about the fairies and a giant toadstool under a tree in their path. The boy—he was about eight—listened indulgently for a moment. Then, looking into the poet-laureate's face, he remonstrated, "Oh, but, grandpa, everybody knows there are no fairies nowadays, and that toadstools are only a sort of fungus growth."

This anecdote is luminous with meaning. The boy, indeed, was quite right. There are no fairies nowadays. The most fanciful thing we are allowed to submit to a childish ear is the tale of a protoplasm. And there can be no doubt that the mother of the future will croon a lullaby like the following:

"Bichlorides keep thee,
And save thee from harm;
Tangents and theories
Will guard 'gainst alarm."

It is wrong, says the parent of to-day, to deceive a child with the old radiant romances. Better let the cupboard of youth be bare than the bone be a sweetmeat. So for the Scientific Child the forest is no longer peopled with sprites and elves, and the sparkling streams are no longer a place for magic craft. Hobgoblins are dismissed contemptuously by his uncanny enlightenment, and bacteria installed in their stead.

As for Santa Claus, the god over whose departure the adult voice is raised in Swinburnian lament, there is no place for him in the accurate little life of this child of to-day. Gone is the breathless surmise of Christmas morning. The child has helped the grown-ups trim his tree; his stocking—if he hung one up at all—is only a meaningless remnant of a barren faith; the good old Yule-tide has come to be merely a season of shrewd calculations.

As a result, the Scientific Child is very, very learned and very, very uninteresting. His mind is starched with facts; he has no more play of fancy than a cash register. Yet more than mental grace has been sacrificed to the system under which he has been brought up. The great principles of life, guarded by these gay fictions of childhood, are often the price of the deprivation.

The fault with the "truthful" method is the assumption that literalness is truth. The scientific, rent, indeed, is not scientific enough to appreciate the science of symbolism. For symbolism is the art of presenting truth in terms of the familiar; and in this art the fairy story is supreme.

If you want to fill a child's mind with mere facts, well and good. Don't tell him fairy stories. But if you think it important to show him great truths, you will often have to go back to the pretty old "untruths." By no other means can they be focussed. In the rustle of the elves' wings will he feel the Great Transcendent Presence, in the narrative of Beauty and the Beast will he find eternal optimism, and through the jolly old saint with his reindeer and pack will be apprehended as through no other way the Christmas significance of giving.—Lippincott's.

Is Compulsory Education a Drawback?

By Joseph M. Rogers.

ANY persons will be surprised to learn that compulsory education is a drawback at the present time. This is by no means an argument against compulsory education, but it is a fact that as the schools are now administered the comparatively recent innovation has been a hardship to many of the brighter minds among the pupils, no matter how much good we may be doing to derelicts. We compel children to go to school, without making proper provision for them. Formerly fewer children than now passed beyond the fourth grade. At ten or twelve they left school to work or to loiter. In the most enlightened States children are compelled to attend school until they are sixteen, unless under exceptional circumstances. This means that the upper grades in the grammar schools are filled, whereas they used to have only about half the present number of pupils, except in the largest cities. It was then a case of the survival of the fittest. As the derelicts dropped out, the teachers had a smaller number of pupils to instruct, and usually the very brightest remained. The teachers were enabled to give more individual attention to the scholars, and thus the eighth-grade pupil left school much better equipped than now when perforce the teacher must give most of her attention to the backward children, a duty which is only slightly lessened by the special schools for delinquents in some large cities.

In most cities forty pupils to a division is the normal number. In many the actual number is much higher. Suppose an advertisement something like this were inserted in a newspaper:

WANTED.—Governess in private family to attend to the mental, moral, and spiritual wants of children, to take the responsibility for their bringing up. Must be well educated, refined, good-tempered; should dress well and be willing to obey one thousand rules of the home. Only fifty children in family. Salary, ten dollars a week, without board. Twelve weeks' holiday, with no salary.

How many answers would be received, and what would such an advertiser expect? Yet this, with a variation in salary, is exactly what is demanded of the teachers in our public schools. The wonder is that so many apply for the position. From a financial point of view, house service is much more profitable. One is reminded of the woman who wrote Madame de Staël asking her to find a tutor for her children, giving a list of the virtues she expected. The grand lady replied that she understood the situation exactly, and when she found such a man she would marry him. No wonder our female school teachers are so anxious to marry, or that there is a never failing stream of young men anxious to have such paragons for wives.

It may be set down as one of the things to be accomplished in the future that no teacher shall be called upon to instruct more than twenty-five pupils. Twenty would be much better.—Lippincott's.

American Women.

By Marcel Prevost, the Great French Psychologist.

FOR us Europeans there certainly exists a physical type of American woman.

In vain do I say to myself that I have, with my own eyes, seen American women of small stature; others with brown skin and hair like that of Italian women; still others endowed with a rather generous plumpness; in vain again do I say to myself that as the population of the United States recruits itself in all the countries of the globe it must naturally contain specimens of every size, of every color of face and hair; in spite of everything the two words, American woman, evoke before my mind a tall person, rather slender, though vigorous looking, with rather light, auburn hair, a complexion agreeably, but not excessively, colored. . . . I am thinking at this moment of a real American, Mrs. S—, who the season before last, in 1908, was indeed a lion in Parisian society. A very fair blonde, tall and slender, with the most beautiful complexion in the world and eyes of a delightful blue. She danced so perfectly that, oblivious of all else, one could have watched her for hours. Impossible to win greater popularity than she enjoyed that year. She eclipsed—according to many Frenchmen—the most celebrated of our professional Parisian beauties, Mme. L—, whom, by an amusing coincidence, she resembled slightly. Well!—that is how I imagine the American woman, taking into consideration, of course, all the differences which would separate an ordinary woman from an exceptional one like Mrs. S—. But even with less brilliancy, grace, and real beauty, it would be a privilege in itself to be compared to the

Athletics as a Factor in Education.

By Malcolm Kenneth Gordon.

EDUCATORS throughout the land are at last beginning to consider the athletic question in its true light, namely, as a great factor in education. By an abnormal development of athletics in precisely the wrong channels, by placing them in a commercial position, and by sadly neglecting the great mass of boys for the benefit of a few, the schools in general and the colleges in particular have now begun to reap as they have sown. Play is the inalienable right of the child, and he must be taught to play in such a way as to develop in him the qualities of leadership and manliness; otherwise it is not too much to say that our national integrity is in danger of being lowered.—The Century.

Lots of our good intentions, confesses the New York Times, die from lack of nourishment.

Glass water pipes covered with asphalt have been in use for a long time in some parts of Germany.

SAYS YANKEES BEAT GERMANS

OUR WORKMAN USES HIS HEAD AND BETTER TOOLS.

Does in 11 Days as Much as a German Does in a Month, Says the Boss of the Lauchhammer Works—A Matter of Progressiveness Rather than Skill.

It is not often that a German manufacturer will admit when he comes over here that there is really something better in this country than his own country produces, but Dr. Joseph Hollenbauer, general manager of the Lauchhammer company, which turns out bridges, structural steel for buildings and bronze monuments, says that American tools are far more up to date than German tools and that American workmen use their brains more than do German workmen.

Dr. Hollenbauer arrived from Europe on his way to San Francisco, as he said, to learn something.

"I came over here the first time in 1866," he said, "and I remained two years at the La Salle Zinc Works in Illinois, one of the proprietors of which is a relative of mine. I think I learned something then. Then I came here again ten years afterward, and again and again, and each time I have learned something.

"Our works are not more than one-tenth the size of the Krupp concern, but in our rolling mills and steel works we employ 4,100 men. We have two plants in Prussia and two in Saxony. Our output per year amounts to 33,000,000 marks, which is more than \$5,000,000. We have men working in various parts of Europe, in Africa and in South America, building bridges and doing steel and iron construction work.

"We also make machinery for iron and steel works, and in our bronze works we turn out a great many monuments.

"You have a good number of our monuments in this country, notably the Schiller and Goethe in Cleveland, and others in Philadelphia, Milwaukee and elsewhere.

"I have tried in vain to get our German workmen to become well educated and to work in the spirit that Americans work, to show some individuality and initiative. I talked over my efforts in this direction the other day with Dr. Benjamin Ide Wheeler, president of the University of California, who has been making a tour of Germany. He seemed to think that German workmen are too much on the lookout for their own personal safety and are unwilling to take risks.

"Mind you, the German workmen are very skillful, and what they do they do well. But the American workman prepares his tools for a week, and at the end of three days he has done a week's work, and he sharpens them again. The German workman sharpens his tools for a week, and he works with them a week before sharpening them again. The German workman is content to work with old fashioned tools. He does not care for good tools of the most modern make. The result is that it takes him a month to turn out work that a good American workman would accomplish in eleven days.

"Why, a few years ago I bought a lot of modern tools in the United States and made presents of them to our workmen. Did they use them? No. They were used to the tools that their fathers had used and with which they had been trained, and the improved implements were quickly discarded. And yet if you bring those same German workmen to America within a month they will be doing as much work as the average native workman and of course earning more money than they did at home. They are skillful enough about their work in Germany, but very few of them work with their intellects.

"Now I have come over again to do some more studying. I have brought over one of my head engineers to study the transmission of electrical power long distances, and we are going to San Francisco for that purpose. I saw an example of that out there four years ago, and we are about to make an application of the principle for ourselves. We have decided to generate all the electricity for our plants in one place, Lauchhammer, and it will be necessary to transmit it as far as thirty-eight miles."—New York Sun.

Noble Blood and a Boil.

G. L. Bartholomew, our popular shoemaker, whose ancestors were of noble blood, says that if all goes well with him for another year he will be prepared to paint his house an elegant drab with green trimmings. Good for George. Would that we had more like him in Titonka.

The Topic is grieved to record that Herman Nelson, the genial and popular banker, is suffering with a boil. * * * He was standing up when we interviewed him the other day.—Titonka (Ia.) Topic.

Akron, Ohio, is the home of fourteen rubber factories. The total capitalization is about \$25,000,000. These companies employ between 11,000 and 12,000 persons.

But few of the heroes in novels, submits the Chicago News, would be able to make good in real life.

TRIALS of the NEEDLEMS

Munyon's Paw Paw Pills coax the liver into activity by gentle methods. They do not scour, gripe or weaken. They are a tonic to the stomach, liver and nerves; invigorate instead of weaken. They enrich the blood and enable the stomach to get all the nourishment from food that is put into it. These pills contain no calomel; they are soothing, healing and stimulating. For sale by all druggists in 10c and 25c sizes. If you need medical advice, write Munyon's Doctors. They will advise to the best of their ability absolutely free of charge. MUNYON'S, 634 and Jefferson Sts., Philadelphia, Pa.

Munyon's Cold Remedy cures a cold in one day. Price 25c. Munyon's Rheumatism Remedy relieves in a few hours and cures in a few days. Price 25c.

A Cheering Prospect.

There is something fearful in too much attention, and overdone hospitality is one of its worst forms. One can fancy the consternation of the tired guest in this story, which happened away in the backwoods of Arkansas. A tourist going over the State on horseback stopped for the night at one of the popular "hotels" of a certain locality.

The hotel was a log-and-slab affair of three rooms and the same number of beds, but the proprietor was the proud parent of nine wild and woolly-looking sons of under 12 years of age. After a supper of "hog and hominy" the host said to one of the boys:

"Come, Billy, get the broom straws." Nine broom straws of unequal lengths were produced by "Billy." The father hid them in his hand in such a manner that only an end of each straw could be seen. Then each boy drew a straw.

"Ha! ha!" said the merry parent, joyfully. "Billy, you an' Buck an' Lige git the short ones."

"What does that mean?" asked the guest, whose look of amusement faded away when the host said:

"Mean? Why, that's a little way we have o' settling which three of 'em shall sleep with anybody that happens to stop overnight with us.

"I s'pect you'll find Buck and Bill and Lige mighty lively bedfellows, but don't you be afeard to give 'em a warming up with your boot or a bed slat if they git to training too high.

"Go 'long, boys, an' pile in with this gent, and mind that you behave yourselves."

For Pain in Chest

For sore throat, sharp pain in lungs, tightness across the chest, hoarseness or cough, have the parts with Sloan's Liniment. You don't need to rub, just lay it on lightly. It penetrates instantly to the seat of the trouble, relieves congestion and stops the pain.

Here's the Proof. Mr. A. W. Price, Fredonia, Kans., says: "We have used Sloan's Liniment for a year, and find it an excellent thing for sore throat, chest pains, colds, and hay fever attacks. A few drops taken on sugar stops coughing and sneezing instantly."

Sloan's Liniment

is easier to use than porous plasters, acts quicker and does not clog up the pores of the skin. It is an excellent antiseptic remedy for asthma, bronchitis, and all inflammatory diseases of the throat and chest; will break up the deadly membrane in an attack of croup, and will kill any kind of neuralgia or rheumatic pains. All druggists keep Sloan's Liniment. Prices 25c, 50c, & \$1.00. Dr. Earl S. Sloan, BOSTON, MASS.

THEY MUST BE YOUNG.

Men of Years Are Not Welcomed by Pulpit and Stage.

The average young physician leaves the medical college gritting his teeth bravely and striving to keep a "stiff upper lip," but realizing that he is "up against it, good and plenty." He knows that before he can command enough practice to make life anything but one long effort to exist comfortably on almost nothing, he will have to go through with a period—often several years in duration—of humiliating obscurity and privation.

No matter how brilliant he may be in the conduct of his profession, or how thorough in his preparation for its exacting duties, he is admitted to the confidence of his patients with grudging hesitation. It is sometimes humorously pathetic to see the efforts made by the youthful doctor to simulate the appearance of age. The premature whiskers he will nourish, the dignified costume he will assume! He is conscious that every year added to his age is a valuable asset added to his professional success. At 60 years of age, when he is at the top of his power, his services are most eagerly sought and most amply remunerated. The young lawyer is just as heavily handicapped by the misfortune of youth. Even to look young is a heavy weight on his aspirations. Youthfulness is something to be explained, to be apologized for. Age and experience are held to be indispensable.

But there are two professions which will have nothing to do with age—the pulpit and the stage. In rare and exceptional cases you find the actor of 50 or 55 still holds the stage, but he usually does so with lessened popularity and greatly lessened salary. And his lease of popularity is generally determined by his ability to simulate youthfulness of appearance. At that age he is oftener found wearing his shoes out on the "Great White Way," which is the "via dolorosa" of the aged actor! He may have marked ability and an exquisite command of the delicate technique of his difficult art, but if he has passed the "dead line" of 50 he is a "has been," to be pushed into obscurity.

In the sacred profession the conditions are even more anomalous. Here is a calling which not only demands generous scholarship, but the ripening influence of spiritual experience, some personal knowledge of the deeper tides of sympathy for pain and bereavement, and a wide touch with the temptations and struggles and trials of our common life.

And yet, in almost every Christian denomination, if a large and prosperous church is without a pastor, its supply committee demands in its candidates the indispensable quality of youth. Throw knowledge, experience, wisdom and ripened character into one scale, and youth in the other, and the latter will almost always tip the beam.

Strength at Various Ages.

According to excellent authority, the muscles, in common with all organs of the human body, have their periods of development and decline, our physical strength increasing up to a certain age and then decreasing. Tests of the strength of several thousand individuals have been made, and the following figures are given as the averages derived from such tests:

The lifting power of a youth of 17 years is 280 pounds; in his 20th year this increases to 320 pounds, and in the 30th and 31st years, respectively, it reaches its height, 365 pounds.

At the expiration of the 31st year the strength begins to decline, very gradually at first. By the 40th year it has decreased eight pounds, and such diminution continues at a slightly increasing rate until the 50th year is reached, when the figure is 330 pounds. Subsequent to this period the strength falls more and more rapidly, until the weakness of old age is reached. It is impossible to obtain trustworthy statistics of the decline of strength after the 50th year, as the rate varies greatly in different individuals.

Queen Fond of American Stories.

Queen Margherita has a weakness for the books of American and English novelists. She also reads English and American magazines, and it is her opinion that the American school of short story writers at present is the best in the world. The Queen gives over several hours every day to fiction. She reads extensively in Italian, of course, but her especial fondness is for books in English. She talks and writes English fluently, and in all literature likes nothing so much as tales of western American life, whether of the mining camp or the ranch. She has read almost everything that has been written about the cowboy. American and English books are sent to her by a London bookseller as soon as published, and once she takes up a volume she finds it difficult to part from it until she has turned the last page.

Cause of Greatest Wonder.

A farmer owned a dog—a very good, high-bred and thoroughly trained dog—that every morning for three years chased a railway train that ran past the farm. The farmer and his wife were watching the persistent but vain pursuit one morning.

"I wonder," the wife said, "what makes that foolish dog chase the train so persistently?"

"Never thought about that," replied the farmer, "but I've often wondered what he would do if he caught it."

SHE IS NEVER STILL.

Rocking Chair Symbolic of American Woman's Nervous Energy.

According to Marc Debral, the French writer, there is no such thing in American society as an ingenué. A debutante will appear to be shy—as shyness is always sweetly attractive—but her efforts are not always a success as they are so palpably assumed. "The typical wealthy young American girl," writes M. Debral, "is very wide awake as to the practical side of life and is even more audacious than her married sister; and yet the latter has complete liberty of action. The organization of her household simplifies domestic cares for the mistress of the house. Servants are hard to get, to be sure, but, on the other hand, their work is made easy for them by all sorts of modern contrivances. Ice boxes are filled with canned foods to be used in case of unexpected demands. What with steam heat, electric light and elevators, the internal administration of a house is regulated almost by machinery."

"The American woman feels no obligation to watch over her home; her enormous fortune makes it unnecessary from her point of view. She is not a natural housekeeper and has no love for pursuits that oblige her to keep still, like delicate needlework and fine embroideries. She prefers sports and active amusements that take her out of doors."

"She may sing about her 'Home, Sweet Home,' but she is quite willing to get away from it."

"Always very busy and having a little or nothing to do, the woman of wealth in America rushes about as though she had a certain task to finish at a certain time; meals are gulped down hurriedly, and orders given in wild haste, without there being the least reason for it. An incident that came under my own observation I thought characteristic: A young woman came into a tea room on Fifth avenue and ordered a cup of chocolate. After hardly touching her lips to the cup, she jumped up, paid for it, and said: 'It's too hot; I can't wait. I haven't the time.' Once more on the sidewalk she ejaculated nervously: 'What shall I do now?' Then got into her carriage and said to the coachman: 'Drive quickly, please,' and on his asking for an address, she said: 'I don't know; straight ahead, but drive fast.'"

"To go fast, straight ahead, to move about in the open, laugh, fidget, chatter, to rush here and there without any object but to feel one's self alive, and use up one's superabundant energy; nothing could be more symbolic of all this than the American woman's beloved rocking chair. Even in repose she swings to and fro, and must have movement even when she is motionless."

A Quaint Wedding.

A quaint and pretty wedding celebrated in Trowsley, Kent, recently, was a genuine old English affair. The bride was Marjorie Nach, daughter of a retired army officer. The "bridal carriage" was a farm wagon, hung with strings of roses. There were two seats in front, and one was vacant on the ride to the church. Behind the bride were the eight bridesmaids in a double row. Three heavy farm horses, led by farm laborers in smocks, drew the wagon. On the return from the church the bridegroom sat beside the bride. Fiddlers and dancers went ahead of the bridal party, and there was a stop at the village green, where all the villagers were treated to cakes and cider. Outside the carpenter shop the bride received the gift of a wooden spoon. The village blacksmith same out in his apron and presented a horseshoe to her. She received gifts from all the shopkeepers in order through the village. Girls scattered roses in the road, and the bride and bridesmaids were in old-fashioned costumes.

The Mills of Minneapolis.

Budapest was at one time known in the world as the Flour City, but along in 1878 a young town on the head waters of the Mississippi, then famous for its prairie dogs and buffaloes, had a lawyer for a citizen who made use of the natural waterfall in the Mississippi to operate a flour mill.

This small beginning grew to such vast proportions, says the Bakers' Weekly, that it soon became necessary to build a more modern system, and the Budapest system was adopted. Such other millers as Pillsbury, Crosby, Christian and Dunwoody had by this time come to this young city, and in a few years it became the flour city of the world. This city was Minneapolis. To-day 120,000,000 bushels of wheat are ground in one year into flour in Minneapolis.

In the age of Pericles, the swiftest flour mill in Athens produced two barrels of flour in one day. There is one mill in Minneapolis which fills 17,000 or 18,000 barrels in one day. What the Greeks did in one day Minneapolis does in 10 seconds.

Carpets Made of Paper.

In Halmstad, Sweden, Pontas Holmstrom is about to start a spinning mill for making yarn out of paper. Such mills already exist in Germany and France. So far the manufacture of rugs and carpets seems to be the best practical use of this new paper yarn. It is said that people in Sweden, especially in the provinces of Ostergotland, are already making carpets with paper web. Narrow rolls of paper tape are used, but this, of course, is not spun.

THAT QUEER BUNCH OF KEYS.

Links Between Peninsula of Florida and Islands of the Antilles.

Stranded at the threshold of the continent a "bunch of keys" lies along the northern and western border of the Strait of Florida, the gateway between the Atlantic and the Gulf; and with the exception of Key West the tide of maritime trade leaves them to one side, shunning their coast of perilous reefs and traditions of shipwreck, with its warning line of light-houses. About the only persons, except their inhabitants, who have any real knowledge of the keys are a few sportsmen who have cruised and fished in the waters of this veritable angler's paradise.

Geographically, the keys are links between the Peninsula of Florida and the islands of the Antilles. From Elliott's Key at the northeast extremity of the chain it is only fifty miles across the Gulf stream to Nassau in the Bahamas. At the other end Key West is only ninety miles from Havana.

Just how many keys there are all told no one knows exactly, unless it is the mapmakers of the coast survey. There are more than a thousand of them, however, many of the smaller keys mere mangrove swamps, submerged at high tide, but the larger and higher keys covered with thick tropical hummock, in which grow the mahogany, the sapodilla, the mango, fantastic orchids of giant size, and other exotic trees and flowers, as well as lemons, limes, grapefruit, bananas and the like better known tropical fruits. The typical tree of the keys is the cocoa palm.

The people of the keys are as peculiar as their country. Locally known as "Conchs," they are the descendants of English-speaking white settlers who came over from the Bahamas when Florida was a British possession. There is a tradition that the name Conch is derived from the standard of a conch shell on a pole, adopted by the native Bahaman regiment which helped the British garrison to beat off a Spanish attack on Nassau in the seventeenth century, and that the keys were populated by descendants of these fighting Bahamans.

Sponging, fishing and wrecking are the occupations of the modern Conch; agriculture is of minor importance, although the coral rock of the keys when decomposed makes soil as fertile as any in the world. Unfortunately the soil is somewhat sandy and stubborn, and planting has to be done with a crowbar. Still there are compensations for stubbornness in a land where tomato vines grow to a height of nine feet.

Why Some Are Bald.

The late Thomas Bone, "the sailor's missionary," was the soul of kindness, but he had a keen wit and a ready tongue, too. An instance given in his recently published life is the following:

"His work was not without its humorous side. Among the new men there were always some who sought a little amusement at his expense, but they reckoned without their host. His kindly manner never changed. The smile never left his face. There was no venom in the retort, but it seldom failed to silence the interrupter. The laugh raiser at his expense made it quite certain that no second attempt would be made."

"Seeing him approaching one day, one of a group of sailors announced his intention of having some fun. He stepped forward and removed his hat, revealing a perfectly smooth crown, and asked:

"Can you tell me why my head is so bald, while all my companions have plenty of hair?"

"I don't know," was the smiling reply, "unless the reason given me the other day by a farmer would apply, that an empty barn is not worth shingling."

Forestalled.

William A. Pinkerton, the head of the famous detective agency, was talking in Chicago about the interesting statistics of his recently published report.

"Yes, it is true," Mr. Pinkerton said, "that we catch the criminal more frequently that we used to. It is true, too, that knowing the criminal's ways, we forestall him—we take preventive measures that reduce crime enormously. We are like the Delmar deacon. This deacon was passing the collection plate one Sunday morning. When he came to a certain penurious Delmar citizen, he noticed that the man extended towards the plate, not a hand with a coin displayed between finger and thumb, but a tightly closed fist. The deacon frowned at the fist, and jerked the plate back from it. 'Give it to me, Mr. Keene,' he whispered audibly. 'One has just come off my vest.'"

The Turn She Did.

The stage blonde—Did you ever give one of those open-air performances? The stage brunette—Yes, I did a turn at one yesterday.

"How did that happen?"

"I stepped off a trolley car backward when it was going at top speed."

No Show at All.

"I think it's wrong for a married man to gamble."

"It's worse than wrong. It's idiotic. His wife gives him fits if he loses and confiscates the proceeds if he wins."

Only a hustler can get the key to the door of success.

KNOWS WHAT WORK MEANS.

Iowa's Governor Gets Up at Dawn and Attends to Farm Chores.

Gov. B. F. Carroll, chief executive of the great State of Iowa, milks his own cow. While most statesmen and politicians are yet dreaming of political plots and diplomatic coups Iowa's chief executive is doing the barn chores. He believes in the simple life. He was born and raised on the farm, being one of thirteen children who had to help supply the larder after his father's death. While years of public life have polished his manners and brightened his wit, they have not inflated him with the pride that scorns honest toil. The Governor as becomingly balances himself on a milk stool to do menial work as he sinks into the chief executive's upholstered chair to direct the destinies of the State.

There is nothing superficial about Iowa's Governor. He greets the visitor with a hearty shake of the hand—a hand hardened enough by toil to immediately awaken the sympathies of him who works for a living. This high official makes a visitor feel at home immediately. He talks interestingly on topics of national interest, of science or religion, and he speaks as fluently and interestingly of the common things of life. He rose to his position largely because of his native honesty.

Gov. Carroll was born in Davis County, Iowa, March 15, 1860, and went to the North Missouri State Normal School at Kirksville, Mo., and then taught several terms. He returned to Bloomfield, Iowa, in 1889, and engaged with his brother in buying and shipping cattle. Later he became owner and editor of a newspaper and in 1895 was elected to the State Senate. After serving in two regular assemblies and a special session he resigned to become postmaster of Bloomfield, Iowa. In 1902 he was elected auditor of the State and held that position until a year ago, when he was elected Governor.

The Governor milks his cow long before office hours. He is up with the sunrise, and long before 8 o'clock the overalls and boots have given way to the Prince Albert and patent leather shoes. You wouldn't know the Governor worked to look at his clothes, but the ruddy glow on his cheeks and the bright light in his eye indicate that he is not a victim of adulterated milk.

MEN ALWAYS NEEDED.

Grant, Lee, Darwin and Wallace, as Examples.

The search for the north pole may be over, but the search for men is still going on. Men are always needed, says the Boston Globe. Lincoln needed them during the civil war. He got them by hundreds of thousands. One of them became President of the United States. After his term of office expired he made a trip to Europe. At Berlin he was hailed as the great general who had triumphed in the greatest civil war of all time. Responding to the compliment, he corrected his eulogist by saying that he did not triumph alone. The successful ending of the war was not his personal achievement, but the achievement of every man who enlisted in the Union army and did his duty.

General Grant was a man. After Gettysburg, when the Confederate invasion of the North was repulsed and the army of northern Virginia had to go back to the old line of defense, some sought to lay the blame for failure on this general and on that. But the chief commander of the Southern forces said that no one was to blame for the disaster but himself. Yet his soldiers knew he was not to blame, and they loved him for his magnanimity and pledged him their lives.

General Lee was a man. When Charles Darwin communicated to his fellow scientists his announcement of the famous theory of the origin of species, another investigator, who had hit upon the same notion, said: "Let Darwin go ahead with it." Thus he put aside any ambition he might have had to be the exponent of a theory which was to command the attention of mankind. Darwinism might have been Wallaceism. But Darwin in his celebrated book does not withhold either from Alfred Wallace or any other person, no matter how great or small his contribution to the subject, his praise for assistance given.

Alfred Wallace and Charles Darwin were men.

Diamond Earrings for the Cat.

Diamond earrings for Mrs. Anita Comfort Brooks' Persian cat is treating the poor thing pretty shabbily. Why stop at earrings? That cat should have diamond rings on its toes, diamond bracelets on its ankles, a diamond tiara. Why be half-way about it? Mrs. Brooks should be more considerate of her pet. She should strip it of its cat's hair and dress it down in ermine. However, so far as she has gone, Mrs. Brooks must be credited with originality. Think of a cat with diamond earrings eating the canary!

At the Opera.

As the celebrated soprano began to sing little Johnnie became greatly exercised over the gesticulations of the orchestra conductor.

"What's that man shaking his stick at her for?" he demanded, indignantly. "Sh-h! He's not shaking his stick at her."

But Johnnie was not convinced. "Then what in thunder's she hollerin' for?"

ATCHISON GLOBE SIGHTS.

You can account for very few marriages.

Every time any big bill is presented to you, it looks like robbery.

If a woman can get her first man, she needn't worry about her second, or third.

"My duty," said an unhappy married woman to-day, "is anything HE objects to."

There is plenty of cooking as good as "mother's," but very few appetites like a boy's.

We have observed that there is little complaint about the high prices of beer and cigars.

The women pick at men and at goods offered at special sale, in the same industrious way.

You are always at a disadvantage in arguing with a man who doesn't know what he is talking about.

Have you ever noticed how suddenly a useful man can die, and how long a worthless man holds out?

A book agent speaks as highly of the book he sells as a reformer speaks of the reform he represents.

Scrapping in families is objectionable, but it is not so bad as when kin praise each other too much.

When you hear a smart saying by a child, it is a sign the child has a smart mother, and that she made it up.

A man and woman going on a wedding trip try hard not to look happy, and on their return try just as hard to look happy.

Whenever we meet a polite man, we always resolve to be more like him. A polite, modest man is a great missionary.

In recent times the parlor is lighted for so many occasions that it is no longer a signal to the neighbors that daughter has a beau.

"Until I was 16 years old," we heard a woman say yesterday, "I was never given any part of the chicken except the neck and back."

MUCH IN LITTLE.

The speed of Russian express trains is about twenty miles an hour.

Salt, petroleum, matches, playing cards are state monopolies in Greece.

At one time among the Greeks the wearing of breeches indicated slavery.

Whooping cough kills more children under five years of age than scarlet fever.

There are now over 33,000 men employed in government dockyards in England.

Deaths from hydrophobia in Europe average only a small fraction over one a year.

Dragon flies can catch insects when flying at the rate of forty or fifty miles an hour.

Naval guns are fitted with small electric grow-lamps, so that they can be utilized at night.

It has been announced that an airship line will be in operation soon between Potsdam and Berlin.

The new municipal laboratory of St. Petersburg is to be named after the Russian biologist, Metchnikoff.

In Athens there are good dentists, and the people take care of their teeth. In the rest of Greece the dentist is usually performed by the barber, who only pulls teeth.

Practically all of the cotton-seed exports go from Bombay to England, two-thirds of the sesame seed from Bombay to France, and nearly all the peanuts from Madras to France.

SPLINTERS.

In the march of progress you want to get close to the band.

It is better to begin in a small way than to end in a small way.

People rarely ever think of trespassing until the place is locked in.

It is a mistake to think that it is going to rain every time you see a cloud.

In a reflective mood—the mirror. It doesn't require heavy timber in the building of air castles.

Hubby—Did you invite the people you just met to come and see you? Wifey—Yes, but they knew I didn't mean it.

Fair Maid—Would you really and truly die for me? Ardent Suitor—Yes, I would do anything for you, except kiss Fido.

Boyce—Why do you say that he is one friend in a thousand? Joyce—The other nine hundred and ninety-nine are always trying to make a touch.

WITH THE SAGES.

Money is a good servant, but a dangerous master.—Bonhours.

Love is the weapon with which there is no shield.—W. J. Bryan.

Defeat is a school in which truth always grows strong.—Manning.

The man without a purpose lives on but enjoys not life.—Mecklenburgh.

From the horny hand of toil comes the richest harvest of content.—W. Stewart Royston.

No man has a prosperity so high or firm but two or three words can dishearten it.—Emerson.

He that does good works for praise to a selfish end sells an inestimable jewel for a trifle.—St. Gregory.

Happiness is the natural flower of duty. The good man ought to be thoroughly happy.—Phillips Brooks.

WORTH KNOWING.

Smoking was a penal offense at one time in Turkey.

It is said there are 1,000,000 Egyptians who can neither read nor write. There are "blind spots" on the tongue which are insensible to certain flavors.

Last year about thirty thousand persons visited the birthplace of Shakespeare.

An official estimate places the number of dairy cows in the United States at 11,000,000.

Before it is completed a champagne bottle passes through the hands of forty-five workmen.

Turkey has more aged people in proportion to her population than any other European country.

Fifty-five million square miles is the area of the Pacific ocean—the same as the earth's land surface.

French theaters receiving government subsidy are obliged to give a free performance every year.

Canada produces nearly one-half the world's supply of maple sugar, about 18,000,000 pounds annually.

Germany, Great Britain and the United States produce four-fifths of the world's supply of pig iron.

On the coast of Ireland it rains on an average of 208 days in the year; in England about 150 days.

Nearly 80,000,000 gallons of water are used annually to cleanse the streets of the city of London.

Guatemala now ranks next to Brazil in importance as the source of the supply of coffee. Ecuador is rapidly expanding its cocoa production.

After being at liberty for ten days, a canary belonging to T. Kirk of Tiverton, England, returned to its cage with another bird of the same species.

The largest grape vine in the world is 120 years old, and is at San Gabriel, Cal., planted by Franciscan friars. The stalk is 1½ feet in diameter, eight feet high, and the branches and foliage cover 5,000 square feet. Its yearly crop of grapes is 2½ tons.

When weighing-in time came at the field day of the Connecticut Fat Men's Association, Dan Wadsworth, the biggest man in Hartford, which was founded by one of his ancestors, sent the beam to 436 pounds at Bristol. He was unanimously elected president of the club.

A splinter that has been driven into the flesh can be removed by the aid of steam. Secure a wide-mouthed bottle and fill it nearly full of hot water, place the injured part over the bottle's mouth, and press slightly. The action thus produced will draw the flesh down, and in a minute or two the steam will extract the splinter, also the inflammation.

ELECTRIC FLASHES.

There are 172 telegraph and 85 telephone offices in Korea.

Woodpeckers are destroying the wooden transmission poles in the West and Southwest.

Chicago is considering plans for an extensive subway system of railways to cost eighty millions.

Greece has practically no coal deposits. Whatever electric power it has comes from water falls.

The Dayton, Ohio, Lighting Company has formed a night study class for instructing its employees on electric subjects.

The Argentine Republic has appropriated \$75,000 to establish wireless operations between Buenos Ayres and Ushuaia.

Over a thousand miles of the New York Central Railroad will soon be equipped with telephones for train dispatching.

Sixty-two electric railway lines operate in and about the city of Paris. The annual average of passengers carried is 190,000,000.

The Mont Blanc electric railroad in Switzerland is now in operation to an elevation of 5,495 feet; it will be continued to the summit.

The work of constructing power houses on the Rubicon river in California has started and the Southern Pacific will be electrified.

Electrically driven vacuum cleaners are now to be used on the best trains of the Great Northern in place of the old dust cloth and broom.

USING OLD NEWSPAPERS.

Crushed newspapers are splendid to clean lamp chimneys.

Wet in water they clean out the stove oven splendidly.

They can even be used for an iron holder in an emergency.

Irons not much soiled can be rubbed on old newspapers and thus made fit for use.

To wipe up spilled water or grease from the floor they save the wringing out of a cloth.

Torn in shreds, slightly dampened and scattered over the carpet, they keep down the dust when sweeping.

To clean the sink of its grease and sediment nothing is better, for the greasy paper can be at once burned after use.

Many times folded they will serve as a mat to stand hot and blackened pots or kettles on and thus save soiling the kitchen table.

The kitchen stove is kept bright and clean by rubbing it briskly after the cooking of each meal with old papers and thus saving many polishings.

A Special Dry Goods Sale

Of unusual strong values for this season of the year, will be at THE GOLD MINE Department Store this week.

LOT NO. 1

Choice of all the new "Dane," Danish or Poplar cloth, the cloth that will wash, in all the new shades

23c

LOT NO. 2

Choice line of grey plaid and fancy mixed suitings, 50 cent values

WEDNESDAY, MARCH 30, 1910.

Otis E. Gulley, a prominent lawyer of Danville and a republican well known over the state, is a candidate for secretary of state.

It develops that the Taggart crowd has a complete slate made out for the democratic state convention to ratify. The Taggart slate shows that if Thos. M. Honan wins the nomination for attorney general, he will have to fight the machine from now on. The name of James F. Cox, of Columbus, who wants to be secretary of state, is also left off the Taggart slate.

Judge R. S. Taylor, of Fort Wayne, gives the Republicans of Indiana good advice when he says: "Let us look forward and not backward. Let us work for those great reforms that are pressing issues now—railroad regulation, corporate control and conservation—with might and main. That is the road to harmony and success for the republicans of Indiana." Judge Taylor would be a good man to help write the republican state platform.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.
Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

JUDGE A. B. ANDERSON

Federal Jurist Gives Warning to Crooked Bankers in Indiana.

POSTOFFICE LOOT FOUND IN A TRUNK

Important Capture Made In New York City.

New York, March 30.—In connection with the postoffice robbery at Richmond, Va., early Monday morning, when \$85,000 worth of stamps and \$3,000 cash were taken, two men have been arrested.

The men arrested are Fred Cunningham thirty-four years old, of London, England, and Frank Chester, fifty-four years old, of St. Paul, Minn. The police believe that a third man was with the two arrested, but he escaped.

The arrest was made by detectives from police headquarters and postal inspectors. With the men were obtained three trunks, one of them containing the tools with which the safes were broken open; a second contained about \$30,000 worth of stamps. The trunks arrived in town by circuitous routes and after many transfers. They were watched all the way from Richmond by postal inspectors and secret service men. One of them, that containing the burglars' tools, was traced to the Hotel Avon at Lexington avenue and Thirtieth street. The second, with nearly half the stamps, was left at the Grand Central station until 8:30 last night, when Chester went to the station and got a boy outside to go in and present the check and have the trunk turned over to a transportation company for him. Detective Baily, disguised as a baggage-man, told the boy to take the check back to the man who gave it to him. He did so and Baily followed him and grabbed Chester. There was a fight which lasted for some minutes, until Baily finally had to knock his man out with a blow on the jaw. Cunningham, who was standing near, took to his heels when the fight commenced, but was caught after a chase in which citizens and half a dozen policemen took part.

TO TRY IT AGAIN

Shopmen on Northwestern Roads Talk of Big Strike.

Winnipeg, Man., March 30.—A great strike of the several mechanical trades on the Canadian Northern railroad and the Canadian Pacific railroad during the summer is one of the probabilities. The men have submitted a demand for an increase of 2½ cents per hour all around. Should the strike occur it would probably be a fight to a finish, as the unions are better prepared than two years ago.

MARKET QUOTATIONS

Prevailing Current Prices For Grain and Livestock.

Indianapolis Grain and Livestock.

May, \$1.17½; July, \$1.09; cash, \$1.17.

The Lash of a Fiend

would have been about as welcome to A. Cooper of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never coughed at night now." Millions know it's matchless merit for stubborn colds, obstinate coughs, sore lungs, lagrippe, asthma, hemorrhage, croup, whooping cough or hayfever. It relieves quickly and never fails to satisfy. A trial convinces. 50c, \$1.00. Trial bottle free. It's positively guaranteed by Andrews-Schwenk Drug Co.

Advertised Letters.

The following is a list of letters remaining in the postoffice at Seymour and if not called for within 14 days will be sent to the dead letter office:

LADIES.

Mrs. Nancy Careway.
Miss Bertha E. Hazelton.
Miss Gussie Smith.
Miss Myrtle Taylor.
Miss Myrtle Taylor.
Miss Myrtle Taylor.

GENTS.

Mr. C. Beck.
Mr. Thomas Mathew.

WM. P. MASTERS, P. M.
Seymour, March 28, 1910.

Don't Break Down.

Severe strains on the vital organs, like strains on machinery, cause break downs. You can't overtax stomach, liver, kidneys, bowels, or nerves without serious danger to yourself. If you are weak or run down, or under strain of any kind, take Electric Bitters, the matchless tonic medicine. Mrs. J. E. Van de Sande, of Kirkland, Ill., writes: "That I did not break down, while enduring a most severe strain for three months, is due wholly to Electric Bitters." Use them and enjoy health and strength. Satisfaction positively guaranteed. 50c at Andrews-Schwenk Drug Co.

Their Answer in the Skies.

Manila, March 28.—As a result of perfect atmospheric conditions the planet Venus was visible at noon Sunday, shining with such brilliancy that it seemed scarcely less luminous than the sun. The natives are mildly agitated, apparently seeing in the phenomenon what they believe to be a celestial answer to their unusual devotions of holy week.

It Saved His Leg.

"All thought I'd lose my leg," writes J. A. Swensen, of Watertown, Wis. "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it, sound and well." Infallible for Skin Eruptions, Eczema, Salt Rheum, Boils, Fever Sores, Burns, Scalds, Cuts and Piles. 25c at Andrews-Schwenk Drug Co.

Work of Professionals.

Shelbyville, Ind., March 28.—The postoffice at Morristown, in the northeastern part of Shelby county, was entered by burglars. The combination on the safe was worked and \$100 in money and \$60 in stamps taken. There is no clue to the thieves, but it is believed that the job was done by professionals.

A Man of Iron Nerve.

Indomitable will and tremendous energy are never found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills, the matchless regulators, for keen brain and strong body. 25c at Andrews-Schwenk Drug Co.

Two trainmen were instantly killed and one other fatally injured as the result of a collision between two interurban electric trains at Lima, O.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

YOUR DAILY TASK

of carrying up coal for use in the kitchen will not be so heavy if you burn our coal. For our coal is the free burning kind which leaves no klunkers and few cinders. It burns right down to ashes. That means you need less of it than ordinary coal. Order a ton or so and you'll have less to carry up daily.

Raymond City Coal at \$3.75.

Your Bath Room Equipment

NO room is so important as the bathroom in its relation to the health and comfort of the family. Its equipment must, therefore, be of the highest order to insure complete satisfaction and there should be an assurance, that once installed, there should be no necessity for the expense of throwing out fixtures which have become imperfect and unsanitary on account of inferior grade of fixtures or workmanship.

Good fixtures are not expensive—it is the so called "cheap" fixtures that are expensive. When you purchase bathroom fixtures, you are buying articles which yourself and family want to use constantly with comfort and security for years to come.

It is not necessary to go beyond your means to purchase the best fixtures and have them installed right. If you call or write, we will gladly quote you on "Standard" Ware, which is positively guaranteed and the best to be had, and we are sure the price will be within the reach of every home owner. Illustrated literature always on hand.

JEWELER

PERSONAL.

Mrs. John Stewart spent Monday at Vallonia.

J. G. L. Lutes was here from Houston Tuesday.

Mrs. J. L. Blair spent Monday in Louisville.

H. C. McMullen was here from Aurora yesterday.

Tilden Smith was here from Vallonia yesterday.

Dr. G. C. Ray was here from Medora Tuesday.

Ex-Sheriff Ed Richards was here from Vallonia yesterday.

Rev. J. G. Brengle was here from Scottsburg yesterday.

Ralph Applewhite was here from Brownstown yesterday.

Ed McDonald left this week on a trip to London, Ontario.

George Vehslage made a business trip to Brownstown yesterday.

Charles Foist, of Redding township, was in the city this morning.

Laurel Hill was here from Medora a short time Tuesday between trains.

Harmon Buening was here from Brownstown yesterday and this morning.

James Cole, of the Louisville branch, was in the city Tuesday from New Albany.

George Helt, a prosperous farmer of near Scipio, was here Tuesday on business.

Clifford Spear, son of Mr. and Mrs. John Spear, was here from Bedford Tuesday.

E. B. Douglass, the city surveyor, made a business trip to Brownstown Tuesday.

Menzo Crockett, of Vallonia, passed through the city Tuesday en route to Urbana, Ill.

Superintendent Charles F. Eddinger, of the county poor farm, was here from Brownstown Tuesday.

Hillis Welsh is on crutches today, because of running a nail into his foot while at work about home Tuesday.

Henry N. Fear, of the Soldiers' Home near Marion, is spending a week here and near Uniontown visiting friends.

Dr. W. O. Goodloe was here from Scottsburg Tuesday the guest of his daughter, Mrs. C. D. Billings and family.

George Wheeler, of near Surprise, was in the city Tuesday en route to Farmington to see his brother-in-law, B. F. McIntire.

C. L. Wells and Clyde Harris, both of Scipio, left Seymour this week over the Pennsylvania line for Bismarck, North Dakota.

Harrison Foist, of near Reddington, was in the city yesterday.

Mrs. Robert Elliott, of Indianapolis, is here the guest of Mrs. N. M. Carlson.

Mr. Oscar and Misses Martha and Clara Schmidt and Mrs. Rev. Eggers spent Tuesday evening in Columbus and attended the special service at the German Lutheran church.

Mrs. Travis Carter will ship her household goods to Indianapolis this afternoon and will go up tomorrow to join her husband for future residence.

Mr. Carter has been there about ten days and has employment at the Atlas Engine Works. They have already secured a house in a convenient location and will go to housekeeping there at once.

Improvements.

Mrs. Elizabeth Vogel is painting her residence on E. Third street.

John Gallimore is building an addition to his residence property north of the Southern Indiana railway between Bill and Blish streets.

The front of the building occupied by Arthur Spreen's Racket store is being repainted and made to look attractive.

Entertained.

Mrs. L. B. Hill very delightfully entertained a company of ladies at her home on West Second street Tuesday afternoon in honor of Mrs. Robert Elliott of Indianapolis, who is visiting in this city.

This afternoon Mrs. N. M. Carlson is entertaining the same company for Elliott at her home on North Walnut street.

Weather Indications.

Showers tonight or Thursday Colder.

Ermine May Fall on Bowers.

Washington, March 30.—The most likely possibility for the late Justice Brewer's place seems to be Lloyd W. Bowers, the present solicitor general. Mr. Bowers' name was favorably mentioned when President Taft was considering the appointment of a successor to Justice Peckham. Mr. Bowers and President Taft have been personal friends since they were in college together at Yale.

Death of Alexander Agassiz.

Cambridge, Mass., March 30.—Alexander Agassiz, the naturalist, son of Louis Agassiz, the famous naturalist, and president of the Calumet and Hecla Mining company, died Monday on the steamer Adriatic, Southampton for New York. The news came in a wireless message from Rodolphe Agassiz, his son.

Flow of Lava Resumed.

Catania, March 30.—The eruptions of Mt. Etna, which had subsided, are increasing in violence. The rumblings have commenced again and the emission of lava is once more active.

S.S.S. DRIVES OUT RHEUMATISM

When the blood becomes overcharged with uric acid it continually grows weaker, more acid, and poorer in nourishing qualities. The nerves, muscles and joints, instead of receiving their necessary nutriment from the circulation are gradually filled with the sharp uratic impurity with which the circulation is loaded, and the pains and aches of Rheumatism are the natural result. No amount of rubbing, or the application of external medicines can have any direct and curative effect on the blood; the most to be expected from such treatment is temporary relief from the pains and aches. There is but one way to cure Rheumatism, and that is to cleanse the blood of the uric acid impurity. S.S.S. is the proper treatment, because it goes down and attacks the disease at its head, and by filtering out every particle of the uratic matter and strengthening and enriching the blood, cures Rheumatism in every form. S.S.S. changes the sour, acid-burdened blood to a rich, healthy stream, which quiets the pain-racked nerves, muscles and joints, cools the feverish flesh, gently removes the cause and drives Rheumatism from the system. S.S.S. reaches inherited cases as well as those which have been acquired, and good results are always experienced from its use. Special book on Rheumatism containing many valuable suggestions for rheumatic sufferers and any medical advice free to all who write.

WOMAN

COURTESIES FORGOTTEN.

Common courtesies of life are being forgotten, and the modern woman but rarely realizes that politeness is less expensive than her new hat, and hesitates to expend a little breath and trouble in smoothing out the ruts in her social pathway. She shows small consideration for those in her employ, "they are paid to do so-and-so," being her motto. So she does not bother to thank the shop girl for all the trouble she has taken to please a critical discontented customer. The woman who is not imbued with socialistic instincts fails to extend to her maids the forethought which she bestows on her lap-dog.

Little kind, thoughtful actions between one woman and another of her sex are rapidly going out of fashion. They "cannot find time" in these days of rush to attend to the number of small courtesies which they owe to each other, so letters are left unanswered, appointments forgotten and apologies seldom made.

Our mothers and grandmothers understood that questioning a friend or acquaintance was distinctly "bad form," and an unpardonable breach of tact, but who does not suffer from the rapid fire of questions and insidious "pumpings" of the modern intelligent female? Curiosity among women is becoming more and more rampant and they do not hesitate to blatantly set to work to unearth the hidden skeleton of their unfortunate friends.

Few women pay respect to age as in the days of old, when gray hairs were revered, not scorned. So the woman with silver curls, soft ruffs and lavender gowns has given way to yellow locks, painted, wrinkled cheeks, and youthful directoire dresses. Women of today cannot be bothered to pay calls on their own sex when the friend in question cannot talk scandal, and, as becomes her years does not play golf. She is neglected and left deploring that when "she was a girl," etc., etc.

Woman's manners in public, too, are not above criticism. Who does not know the woman in car or train who gazes calmly at every detail of your toilet, and then turning to her companion makes an obvious remark, drawing her attention to your helplessness, and the woman who knocks your hat awry, or kicks down your umbrella, without one word of regret. While there is the woman who elbows her way into a car to the disadvantage of shorter people and helpless children.

Manners are at a discount at functions where women predominate, as they do not exert themselves to make conversation with their own sex, or mildly flirt with an older woman by way of helping her to feel that somebody enjoys her company.

Our grandmothers were punctilious on returning borrowed property with a grateful note and the article in perfect condition. But one may consider it a miracle these days of "I forgot" or "I have lost it" if one's possessions once lent ever return. While "looking a gift horse in the mouth" before the donor is not an infrequent occurrence.

The modern woman does not mind accepting many invitations for the same day and at the last moment deciding which is the best, and leaving wailing hostesses in the lurch.

WHY SHE LEFT.

In these days of suffragist furore, the story of a former club-woman, told in Woman's Home Companion is particularly interesting.

This woman has taken a prominent part in club work. The following story of a club election shows why she resigned in disgust.

"Never so long as I live will I forget that election day! Precinct workers and ward heelers may employ less refined methods, but certainly not less effective. The opposition lost. Delegate after delegate cast a vote opposed to her sense of right and wrong, yes, and her own wishes, because she lacked the courage of her convictions, because she was afraid of a woman she said 'I will rule at any cost.'"

"The closing of the polls was marked by scenes that would have been funny, if, to the earnest club-woman, they had not been so pathetic. As one of the tellers I had full benefit of all that happened. I saw hysterical women weep on the neck of our defeated candidate who had herself well in hand. I heard members accuse each other of treachery—and worse. I saw husbands come and take their disheveled and tearful wives home in cabs. And I heard the successful candidate say with teeth almost locked:

"I'll teach the women of— to interfere with my plans!"

"No successful political leader of a graft-cursed municipality ever settled election accounts more systematically than did Mrs. Smith. Every plum went to her supporters. No member of the opposition received the slightest recognition. The party whip snapped on the air at each announcement of a new appointment."

CHILDREN TOO NUMEROUS.

Mrs. Helen La Reine Baker, the wealthiest woman in Spokane, Wash., known as "The Little Mother of Unfortunate Children," made a statement giving her views on children. She said:

"There are already too many children in the world. What we want now is quality and not quantity. Parents should be taught the responsibility of bringing children into the world and then when they have been taught that nine-tenths of the babies born every year are nothing more or less than human culls, I believe the birth rate will decrease and we shall have a better and stronger race."

Mrs. Baker is anything but conventional. She is young and attractive, is highly educated and widely traveled and has plenty of money to gratify every whim. She looks upon Thomas Paine as her patron saint and believes Bernard Shaw, Elbert Hubbard, Moses Harmon and Luther Burbank the four greatest men in the world.

LONG WAITING LIST.

Mrs. John S. Fiske, Mrs. Fitzhugh Speer, Mrs. Alfred M. Morris and Mary B. Ely are the House Committee in charge of the Ely Club, in West Ninety-seventh street, founded with the object of offering a home and help to self-supporting girls studying in New York. It was established and is maintained and managed by graduates of the Ely School, and it meets such a genuine need that, though the house now is filled to its capacity of sixteen girls, there is a waiting list of almost 100 eager for admittance to the club. The resident members hold interesting entertainments from time to time, those who are studying for the stage appearing in recitations. Those who are studying painting, sculpture or music contribute exhibitions of their personal attainments, each in her own particular line.—New York Press.

TREES AT A LUNCHEON.

When Mrs. Titian Coffey gave a luncheon for Miss Evelyn Chew (which envious persons called the Mocha-and-Java blend) there were dainty little rose trees of the "baby rambler" variety in green majolica vases, on the table. That was in Washington a couple of days ago, and the dwarfed foliage certainly gave an air of quaintness. Mrs. Coffey felt it all was worth while in order to show her granddaughter among advantageous surroundings. About the vases were tied big bows of deep pink ribbon, the shade of the clustered roses. The baby rambler will be a favorite this winter, say the persons who follow the profession of decorating homes.—New York Press.

BRITANNY MARRIAGE.

A picturesque marriage ceremony, in which twenty-eight couples went to the altar, took place recently in Brittany. It is the custom in this particular district for all the couples who become engaged during the year to be married on the same day, and as they appeared in their gay national costumes they made a glorious spectacle, the men, in their blue or red jackets, with silver buttons, black velvet waistcoats and felt hats, with velvet ribbons, being no less ornamental than the maids. Twenty sheep and six cows were served whole at the wedding breakfast.—New York Tribune.

SUFFRAGE IN CANADA.

The Ottawa Equal Suffrage Association addressed a letter to the wives of the members of the Provincial Parliament asking their help in securing the passage of a suffrage bill. They point to the fact that the suffrage has been granted women in both New Zealand and Australia and they ask why the women of Canada should be discriminated against by their brothers, fathers and husbands. It is said that all the women addressed, with the exception of less than half a dozen, have replied promising to use their influence.—New York Sun.

SUFFRAGE ARTICLE PRIZE.

The Academy of Moral and Political Science in France has offered a prize of \$400 for the best thesis on "The right of suffrage; should it be extended to women; in what circumstances, and to what extent? The history of the movement and its application in France and in foreign countries." The competition is open to both sexes and the prize is to be awarded in 1913.—New York Sun.

CANINE ATTIRE.

An enterprising customer whose specialty is canine attire has devised some cunning little going-away coats for the pets that brides take with them on their honeymoons. They match the bride's gown and are finished with an enormous rosette of satin ribbon perched in the middle of the little creature's back. Little pockets for the handkerchief and a pair of gutta percha dog shoes complete the travelling outfit.—New York Tribune.

FASHION NOTES.

There are but few stripes among the new gingham; most plaids and checks.

Velvets, corded or plain, play now the most important part of the season's wardrobe.

Fine old lace can now be used by the lucky possessors in any way desired for dress embellishment, as it is distinctly in the forefront.

(Fac-simile of the genuine package slightly reduced.)

Burdens Lifted From Bad Backs

Weary is the back that bears the burden of kidney ills. There's no rest nor peace for the man or woman who has a bad back. The distress begins in early morning. You feel lame and not refreshed. It's hard to get out of bed. It hurts to stoop to tie your shoes. All day the ache keeps up. Any sudden movement sends a sharp twinge through the back. It is torture to stoop or straighten. At night the sufferer retires to toss and twist and groan. Backache is kidney ache—a throbbing, dull aching in the kidneys. To cure backache you must first cure the kidneys. Plasters or liniments won't do. You must get at the cause, inside.

Doan's Kidney Pills Cure Sick Kidneys

Six Months of Misery

Doan's Kidney Pills Brought About a Complete Restoration.

CHARLES EASTER, E. Locust St., Watseka, Ill., says: "In the summer of 1901 I was attacked by pains in the small of my back and as the time passed, the trouble increased until my whole right hip was affected. For six months I could not sit in a chair and I was unable to sleep nights. I lost forty pounds in weight and was so lame and sore that I could not raise my hands to my face. I was languid, had no energy and was bothered by a shortness of breath. During all that time I doctored and used a great amount of medicine but to no avail. Sometimes there was an almost complete retention of the kidney secretions and there was much sediment in them. My wife finally persuaded me to try Doan's Kidney Pills. They gave me such prompt relief that I continued taking them and gradually my condition improved. The trouble with my kidneys was corrected and my aches and pains removed. I am so grateful for this cure that I cheerfully recommend Doan's Kidney Pills to other persons suffering from kidney complaint."

HOW TO TELL WHEN THE KIDNEYS ARE DISORDERED

Painful Symptoms—Backache, side-ache, pains when stooping or lifting, sudden sharp twinges, rheumatic pains, neuralgia, painful, scanty or too frequent urination, dizzy spells, dropsy.

Urinary Symptoms—Discolored or cloudy urine. Urine that contains sediment. Urine that stains the linen. Painful passages. Blood or shreds in the urine. Let a bottleful of the morning urine stand for 24 hours. If it shows a cloudy or fleecy settling, or a layer of fine grains, like brick-dust, the kidneys are disordered.

Twice-Told Testimony

A Wonderful Cure Fully Verified by the Test of Time.

MRS. J. M. BARNHART, 952 N. Jackson St., Frankfort, Ind., says: "Several years ago I was running into Bright's disease. My body bloated a great deal and I had such terrible pains in the small of my back that I could scarcely stand. I rested poorly and the kidney secretions contained a sediment, also being distressing in passage. I tried various preparations but steadily grew worse and when Doan's Kidney Pills were brought to my attention, I procured a supply. The contents of the first box did me so much good that I continued taking the remedy until I was cured. I gave a public statement on July 19, 1906, recommending Doan's Kidney Pills and now I can add that I have had no need of a kidney remedy in over a year."

A Trial Free Test Doan's Kidney Pills Yourself

Harem Cheaper than Wife.

A few months ago King Edward announced that the distinctive feature of an American woman was her back. He could tell at a glance from the rear whether a woman hailed from this country by the way in which she was gowned.

This is all right so far as it goes, but it is a very slight instance. There are a good many other distinctions which go to make up the American woman, notably her general outlook on life, which is that man was made for her amusement and her support. Our men do not dispute the fact. They are never permitted to talk back, so they simply grub a little harder to pay the ever-increasing pile of bills which come in.

It is estimated that a man in Persia or Turkey can maintain a first-class harem on half the sum that a single American wife costs a man of equal standing with the oriental. We give this for what it is worth, not that it bears upon the matter in hand. Americans are immune from polygamy, even if there were no other factor than the cost.—Philadelphia Inquirer.

A Deeply Felt Want.

Steward (the first day out)—Did you ring, sir?

Traveler—Yes, steward. I—I rang.

Steward—Anything I can bring you, sir?

Traveler—Yes, st-teward. B-ring me a continent, if you have one, or an island—anything, steward, so I-l-l-longs as it's solid. If you can't, sus-sink the ship.

CHANGE THE VIBRATION.

It Makes for Health.

A man tried leaving off meat, potatoes, coffee, and etc., and adopted a breakfast of fruit, Grape-Nuts with cream, some crisp toast and a cup of Postum.

His health began to improve at once for the reason that a meat eater will reach a place once in a while where his system seems to become clogged and the machinery doesn't work smoothly.

A change of this kind puts aside food of low nutritive value and takes up food and drink of the highest value, already partly digested and capable of being quickly changed into good, rich blood and strong tissue.

A most valuable feature of Grape-Nuts is the natural phosphate of potash grown in the grains from which it is made. This is the element which transforms albumen in the body into the soft gray substance which fills brain and nerve centres.

A few days' use of Grape-Nuts will give one a degree of nervous strength well worth the trial.

Look in pkgs. for the little book, "The Road to Wellville." "There's a Reason."

AN EFFECTIVE FETISH.

Ngalyma was an African, and an enterprising trader in ivory and slaves, holding the position of chief of the Stanley Pool district. He had demanded, wrote Sir Henry M. Stanley in his recently published "Autobiography," and also received a goodly sum for granting Stanley the privilege of establishing a station where up-river navigation begins. Time passed, and Ngalyma chose to forget this transaction, and made an impudent demand for more money. Duly warned, however, Stanley had prepared a surprise for him.

I had hung a great Chinese gong conspicuously near the principal tent. All my men were hidden, some in the steamboat on top of the wagon; and in its shadow was a cool place, where the warriors would gladly rest after a ten-mile march. Other of my men lay still as death under tarpaulins, under bundles of grass, and in the bush round the camp. By the time the drum taps and horns announced Ngalyma's arrival, the camp seemed practically abandoned.

Ngalyma was strangely cold at my hearty greeting, and said, "Has not my brother forgotten his road? What does he mean by coming to this country?" "Nay, it is Ngalyma who has forgotten the blood-bond that exists between us. It is Ngalyma who has forgotten the mountains of goods which I paid him. What words are these of my brother?"

Speech and counter-speech followed. Ngalyma had exhausted his arguments; but it was not easy to break faith and be unwell without plausible excuse. His eyes were reaching round to discover an excuse to fight, when they rested on the round, burnished face of the Chinese gong.

"What is that?" he said.

"Ah, that—that is a fetish."

"A fetish! A fetish for what?"

"It is a war fetish, Ngalyma. The slightest sound of that would fill this empty camp with hundreds of angry warriors; they would drop from above, they would spring up from the ground, from the forest about, from everywhere."

"Sho! Tell that story to the old women, and not to a chief like Ngalyma. My boy tells me it is a kind of bell. Strike it and let me hear it."

"O Ngalyma, my brother, the consequences would be too dreadful! Do not think of such a thing."

"Strike it, I say."

I struck it hard and fast, and the clangorous roll rang out like thunder in the stillness.

Only for a few seconds, however, for a tempest of human voices was heard bursting into into frightful discords,

and from above, right upon the heads of the astonished warriors, leaped yelling men; and from tents, the huts, the forest round about, they came by sixes, dozens and scores, yelling like madmen, and seemingly animated with uncontrollable rage.

The painted warriors became panic-stricken; they forgot their chief and all thoughts of loyalty, and fled on the instant, fear lifting their heels high in the air.

But Ngalyma and his son did not fly. They caught the tails of my coat, and we began to dance from side to side, a loving triplet, myself being foremost, to ward off the blows savagely aimed at my "brothers," and cheerfully crying out:

"Hold fast to me, my brothers! I will defend you to the last drop of my blood! Come one, come all!"

Presently the order was given, "Fall in!" and quickly the men stood in two long lines in beautiful order. Ngalyma relaxed his hold of my coat tails, and crept from behind, breathing more freely.

"Eh, Mamma!" he exclaimed. "Where did all these people come from?"

"Ah, Ngalyma," I said, "did I not tell you it was a powerful fetish? Let me strike it again, and show you what else it can do."

"No, no!" he shrieked. "I have seen enough."

Talking in a Circle.

"From what I've heard about Cuba," said Mrs. Lapsing, "they don't use the automobile very much down there. A rich Cuban rides around in a sort of two wheeled vocabulary."

Children Who Are Sickly.

Mothers should never be without a box of Mother Gray's Sweet Powders for Children. They break up colds in 24 hours, cure Feverishness, Constipation, Headache, Teething Disorders and Stomach Troubles. Over 10,000 testimonials. At all Druggists, 25c. Ask to-day. Sample mailed FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

Artistic Repartee.

"How are you getting along with your statue of war?" asked the landscape painter.

"I'm putting as bold a face on it as possible," answered the sculptor.

The Germans are laying the foundations for increased foreign trade by more attention to the teaching of languages in the public schools.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

PERRY DAVIS' PAINKILLER

has an enviable reputation of over seventy years as a reliable remedy for Lumbago, Sciatica, Pleurisy, Stitches, etc. 25c. 50c. and \$1.00. All druggists.

Seventy per cent of the world's supply of camphor each year is consumed in the manufacture of celluloid.

How a Doctor Cured Scalp Disease.

"When I was ten or twelve years old I had a scalp disease, something like scald head, though it wasn't that. I suffered for several months, and most of my hair came out. Finally they had a doctor to see me and he recommended the Cuticura Remedies. They cured me in a few weeks. I have used the Cuticura Remedies, also, for a breaking out on my hands and was benefited a great deal. I haven't had any more trouble with the scalp disease. Miss Jessie F. Buchanan, R. F. D. 3, Hamilton, Ga., Jan. 7, 1909."

Kept with Barnum's Circus.

P. T. Barnum, the famous circus man, once wrote: "I have had the Cuticura Remedies among the contents of my medicine chest with my shows for the last three seasons, and I can cheerfully certify that they were very effective in every case which called for their use."

Elaborate Revenge.

"Paw, wasn't that a horrible dinner?"

"It was, Tommy."

"But you handed the waiter a dime when we went away. What did you do that for?"

"I wanted to convey the idea to him, Tommy, as delicately as possible, that if he'd brought us a good feed it would have been a half dollar."

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

Noble Revenge.

"Margie, if grandpa was cross to you, you must be kind to him."

"What for, mamma?"

"Don't you know, child? It will be heaping coals of fire on his head."

"Will it, mamma? Then I'll be just as kind as I can be to the old cross-patch. You know how bald he is!"—Chicago Tribune.

Enlightening Him.

Algy—Doctor, what—aw—is the first symptom of softening of the brain?

Medical Adviser—The possession of a brain, my dear boy.

Why Single Girls Fail Where Widows Win.

It was Tony Weller who on one occasion gave the solemn advice to his son, the irrepressible Sam of "Pickwick" fame, "Samuel, my boy, beware of vidders." But it is evident, judging from the number of widows who get married every year, that the average man is inclined to pay little heed to old Tony's warning. This is, perhaps, because widows have improved in character and disposition somewhat since the Pickwickian days, or maybe their wiles and fascinations have become stronger and more irresistible.

Whatever the reason, the fact remains that widows frequently win husbands where spinsters fail, and according to official returns, there is a growing disposition on the part of the sterner sex to share their homes and fortunes with ladies who have already had some experience of married life. Probably the fact that a widow's previous knowledge of men and matrimony secures for her an advantage over her single sisters has a great deal to do with this rather surprising state of affairs. Much married happiness is often frittered away before the average husband and wife get to understand the vagaries of opposite sexes. "And this," as the celebrated Mark Twain has observed, "is just where the widow comes in. She has served her apprenticeship, and has parted with her illusions, so that the man she condescends to marry has a fair start."

Undoubtedly men are attracted towards women who understand them, and no one knows this better than the widow herself. What widow, for instance, ever objects to smoking? She knows a man loves his cigar or a pipe of tobacco. Therefore she makes a study of a man in order to gain a knowledge of his likes and dislikes and never neglects an opportunity of catering to his whims. A widow has the happy knack of being more anxious to please than to be pleased, and as very many men have a weakness for a little adulation, she invariably succeeds in her object.

She is wise enough, too, not to argue with the man whom she would like to be something more than a friend, or, if she does, she contrives to convey in a fascinating manner the impression that she is convinced he is right. She is aware that arguments are the crypt of friendship, and the everlasting doom of love. She knows that when a man leaves his office or workshop he is desirous of leaving there all worries and perplexities, with the result that she does not try to force her opinions on him.

It is often said that widows angle, or run after men; but in five cases out of six the accusation is an unjust one, the real truth being that their popularity causes men to really run after them instead of vice versa. As a rule a widow is so sympathetic and gracious to all her male friends, seeming to so thoroughly understand their fancies and feelings, that they instinctively seek her society.

She may, or may not, care to enter the bonds of wedlock once more, but, having grown accustomed to a husband's comradeship, she enjoys the society of other men. She enters into their pleasures as far as she possibly can, and endeavors at all times to make them feel as comfortable and "at home" in her presence as they would in that of her companions. What is more, a widow invariably shows herself to be of an economical turn of mind, the result of her former marriage experience. She knows the value of money; that the most elastic dollar only contains one hundred cents, and no one can make it go further than she.

Consequently, if anything were needed to convince a man of a widow's fitness to be his wife, it would be her practical and sensible views on economy.

It is, however, as a practical woman that a widow appeals most forcibly to a man. He feels convinced that by marrying her he will be sure to have obtained a wife who can manage a home. Of course, to some men the thought that another man had once held first place in the wife's affections would be a great objection to marriage with a widow. But men hold the reputation of being proverbially selfish, and when it comes to choosing between a woman who has only love and good looks to recommend her, and one possessed of practical common sense, together with a sound knowledge of how to look after a home and their creature comforts, they incline towards the latter.—New York American.

People and Police.

Mayor Gaynor's orders as to the treatment of citizens by New York policemen reminds a metropolitan reporter of a remark made to him by an upstate police captain not long ago. "Why," said that knight of the club, "if we tried to work the tricks on our citizens up here that your cops do down in the big city we'd all be hanging by the neck over the bridge. Yes, sir, up here the people know their rights. And in New York, apparently, they don't."

WORTH KNOWING

Simple but Powerful Prescription for Rheumatism and Lame Backs.

This was previously published here and cured hundreds. "Get one ounce of syrup of Sarsaparilla compound and one ounce Toris Compound. Then get half a pint of good whiskey and put the other two ingredients into it. Take a tablespoonful of this mixture before each meal and at bed time. Shake the bottle each time." Good effects are felt the first day. Any druggist has these ingredients on hand or will quickly get them from his wholesale house.

A Modern Version.

Simple Simon met a pleman,
Going to the fair.
Said Simple Simon to the pleman,
"Let me taste your ware."
Said the pleman to Simple Simon:
"Young man, my ancestors were the hardy spirits who first blazed a trail through the pathless forest and founded the pioneer settlement in the region which is now Missouri. I myself hail from that glorious commonwealth, and before I can be induced to part with one of the succulent gobs of pastry which I am vending, I must be shown your penny."
Said Simple Simon to the pleman,
"Indeed, I haven't any."
—Lippincott's Magazine.

Trials Kidney Remedy Free.
The proprietors of Doan's Kidney Remedy offer in another part of this paper a free trial of their renowned specific for Kidney diseases. By cutting out the coupon in another column and sending it to Foster-Milburn Co., Buffalo, N. Y., a trial of the remedy will be sent without charge. This shows the confidence of the proprietors in the efficacy of the remedy, else they would not undergo this great expense.

Making Progress.

Bonsen—Been to the automobile show, have you? Decided yet what kind you are going to buy?
Batterson—Not quite; but I'm getting there by a process of elimination. I have examined eighty-seven machines that I have decided not to buy, on account of the price.

Generous Free Offer to All Rheumatism Sufferers.

Every rheumatism sufferer should send his name to the Samaritan Medicine Co. of St. Louis, Mo., for a liberal treatment of their celebrated rheumatism cure. Two kinds; both free. Your request creates no obligation; no future demand will be made. Simply ask for it now, as the offer is limited, and judge for yourself.

By the Gradual Reduction Process.

Raynor—Have you got to the point of doing without beef yet?
Shyne—Not quite, but we're training down to it. Week before last we lived on chuck steak. Last week we bought nothing but beef hearts and kidneys. This week we're eating pickled tripe. Next week we'll be ready to tackle anything.—Chicago Tribune.

For the first time in many years Nevada produced a marketable quantity of quicksilver last year.

BREAK UP THAT COUGH
with Allen's Lung Balm, the popular family remedy. It cures where other remedies fail. All dealers. 25c, 50c, \$1.00 bottles.

Plant life rarely thrives under yew and ash trees.

Mrs. Winslow's SOOTHING SYRUP for Children teething; softens the gums, reduces inflammation, allays pain, cures wind colic. 25 cents a bottle.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

PUTNAM FADELESS DYES

Color more goods brighter and faster colors than any other dye. One 10c package colors all fibers. They dye in cold water better than any other dye. You can dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. MONROE DRUG CO., Quincy, Illinois

CONVINCING PROOF

OF THE VIRTUE OF

Lydia E. Pinkham's Vegetable Compound

What is the use of procrastinating in the face of such evidence as the following letters represent? If you are a sick woman or know one who is, what sensible reason have you for not giving Lydia E. Pinkham's Vegetable Compound a trial? For 30 years we have been publishing such testimonial letters as these—thousands of them—they are genuine and honest, too, every one of them.

Mrs. S. J. Barber says:

"I think Lydia E. Pinkham's Vegetable Compound is the best medicine in the world for women—and I feel it my duty to let others know the good it has done for me. Three years ago I had a tumor which the doctor said would have to be removed by an operation or I could not live more than a year, or two, at most. I wrote Mrs. Pinkham, at Lynn, Mass., for advice, and took 14 bottles of Lydia E. Pinkham's Vegetable Compound, and today the tumor is gone and I am a perfectly well woman. I hope my testimonial will be of benefit to others."—MRS. S. J. BARBER, Scott, N. Y.

Mrs. George May says:

"No one knows what I have suffered from female troubles, neuralgia pains, and backache. My doctor said he could not give me anything to cure it. Through the advice of a friend I began to use Lydia E. Pinkham's Vegetable Compound, and the pain soon disappeared. I continued its use and am now in perfect health. Lydia E. Pinkham's Vegetable Compound has been a God-send to me as I believe I should have been in my grave if it had not been for Mrs. Pinkham's advice and Lydia E. Pinkham's Vegetable Compound."—MRS. GEORGE MAY, 86 4th Ave., Paterson, N. J.

Mrs. E. F. Hayes says:

"I was under the doctor's treatment for a fibroid tumor. I suffered with pain, soreness, bloating, and could not walk or stand on my feet any length of time. I wrote to Mrs. Pinkham for advice, followed her directions and took Lydia E. Pinkham's Vegetable Compound. To-day I am a well woman, the tumor was expelled and my whole system strengthened. I advise all women who are afflicted with tumors or female troubles to try Lydia E. Pinkham's Vegetable Compound."—MRS. E. F. HAYES, 1890 Washington St., Boston, Mass.

Mrs. W. K. Housh says:

"I have been completely cured of a severe female trouble by Lydia E. Pinkham's Vegetable Compound, and want to recommend it to all suffering women."—MRS. W. K. HOUSH, 7 Eastview Ave., Cincinnati, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, etc.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

14 3/4 CENTS A ROD

IN WRITING TO ADVERTISERS, please do not fail to mention you saw the Advertisement in this paper.

FREE-TO-YOU-FREE

\$400.00 SEGGERSTROM PIANO if you send us the best answer to the following rebus. Also \$14,500.00 in other cash value prizes to advertise our factory and the fastest growing piano manufacturing business in the United States, as follows:

FIRST PRIZE—ONE \$400.00 SEGGERSTROM PIANO to the one who sends in the best answer

THEN—\$14,500.00 will be divided in amounts from \$25.00 to \$150.00 according to merit. These awards are good just the same as so much money towards the purchase of any new piano in our store. \$14,500.00 in other cash value prizes to advertise our factory and the fastest growing piano manufacturing business in the United States. We are spending a fortune each year in advertising the SEGGERSTROM PIANO direct from the homes of satisfied customers which, after all, is the very best advertisement and we intend to accomplish in one year what other manufacturers have taken fifty years to do. Lipton spent a million dollars in advertising the products of his manufacture. Wise guys pronounced him a lunatic. Today he is heralded by the crowned heads of Europe, proclaimed the King merchant. It pays to advertise when your goods are right. We sell more pianos wholesale and retail than any other manufacturing concern in the country and our plan appeals to the thinking buyers on account of our system of selling pianos direct from factory to home, which eliminates all middleman's profits. Every contestant will be answered by mail, but be sure and enclose a self-addressed envelope to assure that your award will not be missed or lost in the mail.

SEGGERSTROM PIANO MFG. CO. MINNEAPOLIS, MINNESOTA

WESTERN CANADA

What Governor Deneen, of Illinois, Says About It:

Governor Deneen, of Illinois, owns a section of land in Saskatchewan, Canada. He has said in an interview:
"As an American I am delighted to see the remarkable progress of Western Canada. Our people are flocking across the boundary in thousands, and I have not yet met one who admitted of the possibility of a mistake. They are all doing well. There is scarcely a community in the Middle of Western States that has not a representative in Manitoba, Saskatchewan or Alberta."

125 Million Bushels of Wheat in 1909

Western Canada field crops for 1909 will easily yield to the farmer \$170,000,000.00 in cash. Free Homesteads of 160 acres, and pre-emption of 160 acres at \$3.00 an acre. Railway and Land Company have land for sale at reasonable prices. Many farmers have paid for their land out of the proceeds of one crop. Splendid climate, good schools, excellent railway facilities, low freight rates, wood, water and lumber easily obtained.

For particulars as to suitable location and low settlers' rates, apply to Dept. of Immigration, Ottawa, Can., or to the following Canadian Gov't Agent: C. J. Broughton, Chicago 412, Merchants' Loan and Trust Building, Room 419.

Please say where you saw this advertisement.

Let Me Tell You Something

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched condition.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering. Read what these women say:

Camden, N. J.—"It is with pleasure that I send my testimonial for Lydia E. Pinkham's Vegetable Compound, hoping it may induce other suffering women to avail themselves of the benefit of this valuable remedy."

"I suffered from pains in my back and side, sick headaches, no appetite, was tired and nervous all the time, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound made me a well woman—and this valuable medicine shall always have my praise."—Mrs. W. P. Valentine, 992 Lincoln Ave., Camden, N. J.

Buffalo, N. Y.—"I am writing to tell you that I am pleased with your medicines. I had been sick for a long time with prolapsus. I heard about Lydia E. Pinkham's Vegetable Compound, and I have found that it is the right kind of medicine for me. I felt relieved after taking one bottle and I kept on taking it till now I am well and strong, and am able to do my work."—Mrs. Henry Kossov, 472 Genesee St., Buffalo, N. Y.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

TREATISE ON BEEDLES

By W. S. Batchley Will Not be Printed by State.

Because Governor Marshall, Secretary of State Fred Sims, Auditor of State John Billheimer and A. E. Butler, clerk of the State Printing Board, can not see how a treatise on the beetle properly may be included in the official report of State Geologist W. S. Batchley, the publication of the report of that department was not authorized at a meeting of the board yesterday, although Mr. Batchley's introduction to his report, and the reports of the oil inspection, mining and gas departments were passed upon favorably and event- Batchley will be given an opportunity to appear before the board next month and show, if possible, how his treatise legally may be authorized.

The treatise on beetles was prepared by Mr. Batchley some time ago and is regarded as an important work.

The Bureau of Statistics was refused a request for printing of 3,500 bulletins explaining work of the Indiana Free Public Employment Bureau. The Board found no provision in the statutes permitting it to draw upon the public printing fund for that purpose. A request of Superintendent Richard O. Johnson, of the Indiana School for the Deaf that 1,050 reports of that school, instead of 700, be printed, was refused. The state veterinarian's request that 500 pamphlets containing the veterinary laws of the state be printed, was granted.

A report of expenditures during the last month showed printing for the state institutions had cost \$1,515.72 and for state officers \$3,309.49. The report for the first six months of the fiscal year showed that \$19,877.20 of a total appropriation had been spent.

Successful Teacher.

Miss Ora Armstrong, a graduate of the Seymour High school, is here from Lawrence county spending a week with Elder and Mrs. Harley Jackson and family of N. Chestnut street. She has just closed her second year as teacher of the school at Needmore, near Oolitic. She will go to Indianapolis about the middle of April to enter Bloechers kindergarten school. She has proved to be an excellent teacher as well as student and is expecting to make primary work a specialty.

ADVICE TO WOMEN.

A Message From a Famous Beauty Specialist to Women Lacking in Energy and Vitality.

Thousands of women vainly attempt to improve their complexions and to remove blackheads, crows' feet and other blemishes, through the use of cosmetics. This treatment fails because the trouble lies deeper than the skin. They are suffering from impure and impoverished blood. This condition is in many cases due to a catarrhal condition of the whole system which finds its expression in sallow, muddy complexion, dark circled eyes, general weakness of the system, and perhaps most plainly in the weeping of mucus membranes that is commonly called catarrh.

In fact this whole tendency is, properly speaking, Catarrh. Banish this catarrh, and the complexion will clear as if by magic, eyes will brighten, faces become rosy and shoulders erect. Perfect beauty goes only with perfect health, and perfect health for women can only be obtained through one certain treatment—that which will cure catarrh.

Mme. Swift, New York, the famous beauty specialist known throughout the world and an accepted authority on all relating thereto, states that the one positive and permanent relief for catarrh is Rexall Mucuo-Tone. Here is her letter:

"I can strongly endorse the claims made for Rexall Mucuo-Tone as a cure for systematic catarrh. Its tonic effects are remarkable. It builds up the strength and restores vitality. If women who are tired and run down, lacking in energy and vitality, will use Rexall Mucuo-Tone, they will praise as I do its strengthening and healing qualities."

Rexall Mucuo-Tone works through the blood, acting thus upon the mucus cells—the congestion and inflammation of which causes local catarrh. This remedy causes poison to be expelled from the system, and the blood is purified and revitalized. Thus the natural functions of the mucus cells are restored, and the membranes are cleansed and made strong. We know that Rexall Mucuo-Tone does relieve catarrh. We positively guarantee to refund the money paid us for this remedy in every case where the user is dissatisfied. It is a builder of vigorous health and a creator of good complexions. Price 50 cents and \$1.00 per bottle. Mail orders filled. It may be obtained only at our store, The Rexall Store, The Andrews-Schwenk Drug Co.

A Fine Piano Sold.

The Progressive Music Co. has sold a fine Cori piano to Miss Ethel Abel, a teacher in one of the public schools in Hamilton township.

John Crippin, of Columbus, transacted business here Tuesday.

TAKE IT IN TIME.

Just as Scores of Seymour People Have

Waiting doesn't pay.

If you neglect the aching back.

Urinary troubles and diabetes surely follow.

Doan's Kidney Pills relieve back-ache.

Cure every kidney ill.

Many people in this locality recommend Doan's Kidney Pills.

Here's one case:

B. J. Robbins, Main Street, Brownstown, Ind., says: "For thirty years I suffered from kidney trouble. My kidneys were disordered and the secretions from these organs became too frequent in passage at times, while again scanty and painful. I also had severe pains across my hips and my back was so stiff and lame that I had to walk with a cane. I doctored for years but without relief until I used Doan's Kidney Pills. They did wonders for me. It is a great comfort in my old age to find a medicine of such merit as is Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

SAVE YOUR MONEY.

Take Stock in the New Series Which Starts Monday, April 4th.

Indications point to one of the largest series of stock ever issued by the Co-Operative Building and Loan Association. Already there are large number of applications filed with the secretary. The plan of the Co-Operative Building and Loan Association has been so thoroughly tried that people have learned to rely upon it with great confidence. The Association is recognized as one of the strong financial institutions of our city and county.

For anyone who wishes to save money and can do it only in small amounts, the Association offers a plan which adds its earnings to the money saved each week, if the shareholder subscribes for the number of shares he wishes to take, at the rate of twenty-five cents per week.

These accumulated savings are taken by the Association and loaned on first mortgage securities in Jackson county. Every three months the interest from these loans are apportioned among the stockholders in proportion to the amount paid in on each series of stock. When these earnings and the amount paid in, amount to one hundred dollars the stock has matured and the shareholder withdraws the full amount. Saving in small amounts is the easiest way in the world to accumulate a snug sum of money, and before the stockholder is aware, he has accumulated enough money at invest in property, to invest in business, or to use for any purpose that he needs.

See the Secretary, Thos. J. Clark, Opera House Block, and arrange to take as many shares as you wish in the new series starting Monday, April 4th.

BEILHARTZ ENTERTAINERS

To Appear in Seymour April 19 Under Auspices of High School.

Arrangements have been made to have the Beilhartz Entertainers appear in this city April 19 under the auspices of the High School. These impersonators are in great demand for lecture courses and Chautauqua work and the school authorities feel that they are fortunate in securing them for an engagement at this time. The Beilhartzes have appeared a number of times at the New Albany Chautauqua and they are always greeted with an enthusiastic audience.

A number of people in Seymour have heard these entertainers and are very much pleased to learn that they are to appear here. The entertainment will probably be given at the Majestic, and will be heard by a large crowd. The proceeds will be used for high school purposes.

YOUNG MEN WANTED.

Government Pays Railway Mail Clerks \$800 To \$1,400 a Year.

Free Scholarships Are Offered. Uncle Sam holds examinations for railway mail clerk, postoffice clerk or carrier, custom house and departmental clerks. Prepare at once for the coming examinations.

The job is for life; hours are short, salary twice monthly and vacation. To any young man who has energy enough to answer, this is the opportunity of a lifetime.

Thousands of appointments are to be made. Common school education is all you need; city and country people have equal chance. Start to prepare now—free information. Free scholarship this month. Write immediately to Central Schools, Dept. S-66, Rochester, N. Y.

Mayor Heads Sunday Baseball.

Mayor Charles S. Barnaby, of Columbus, is at the head of a baseball organization which will finance Sunday baseball games in that city. The association will incorporate, and has made arrangements for a baseball park for the games this summer.

Judge F. W. Wesner made a business trip to Brownstown Tuesday.
